

DIN EN 622-5:2010-03 (E)

Fibreboards - Specifications - Part 5: Requirements for dry process boards (MDF)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	5
4	Requirements	6
4.1	General	6
4.2	Requirements for non load-bearing boards, including boards for general purpose use	7
4.2.1	Requirements for boards for use in dry conditions	7
4.2.2	Requirements for boards for use in humid conditions	7
4.3	Requirements for load-bearing boards	8
4.3.1	Requirements for load-bearing boards for use in dry conditions	8
4.3.2	Requirements for load-bearing boards for use in humid conditions	8
4.4	Requirements for light MDF boards for non load-bearing applications, including general purpose boards	9
4.4.1	Requirements for boards for use in dry conditions	9
4.4.2	Requirements for boards for use in humid conditions	10
4.5	Requirements for ultra-light MDF boards for non load-bearing applications, including general purpose boards	10
4.6	Requirements for boards for use in rigid underlays in roofing and walls	11
5	Verification of compliance	12
5.1	General	12
5.2	External control	12
5.3	Factory production control	12
6	Supplementary properties	12
7	Marking	13
7.1	Boards marketed within the European Economic Area for construction applications	13
7.2	Other boards	13
Annex A (normative) Boil test according to EN 1087-1 - Modified procedure		14
