Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Principle 7

5 Test materials 8
5.1 Biological material 8
5.2 Products and reagents 8
5.3 Apparatus 10
5.4 Other material 11

6 Sampling 11

7 Test specimens 11
7.1 Species of wood 11
7.2 Wood quality 12
7.3 Preparation of sticks and blocks 12
7.4 Preparation of test specimens 13
7.5 Number of test specimens 13

8 Procedure 14
8.1 Treatment of the wood test specimens 14
8.2 Pre-conditioning of the test specimens prior to fungal test 17
8.3 Fungal test 17
8.4 Test conditions and duration of test 18
8.5 Assessment of the test specimens 18

9 Validity of results 19

10 Reporting the results 20

11 Test report 20

Annex A (normative) Detailed information on coating products 22

A.1 General 22
A.2 Alkyd coating material for organic solvent based preparations (5.2.2.2) 22
A.3 Acrylic coating material for water based preparations (5.2.2.3) 24

Annex B (normative) Preparation of a spore suspension of the test fungi 27

Annex C (informative) Information regarding sterilisation procedures 28

C.1 Ionising irradiation 28

C.2 Steam 28

Annex D (informative) Figures on equipment and diagrams 29

Annex E (informative) Instructions on the test procedure 34

Annex F (normative) Artificial weathering cycle 36

F.1 Introduction 36
F.2 Apparatus - minimum requirements 36
F.3 Weathering cycles 37
F.4 Criteria to select weathering cycles 42
F.5 Conditioning 42

Annex G (informative) Example of a test report 43

Annex H (informative) Environmental, health and safety precautions within chemical/biological laboratory 44

Bibliography 45
