European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Strength classes for pressure tubes 4

5 Test apparatus 5
5.1 Material testing machine 5
5.2 Testing equipment for magnetic powder flaw test 5

6 Test 5
6.1 General 5
6.2 Strength and durability 5
6.2.1 Sampling 5
6.2.2 Test procedure 5
6.2.3 Evaluation and requirement 7

7 Test report 7

8 Marking of the pressure tube 8

Annex A (normative) Product information 9

A.1 General 9
A.2 Provisions 9
A.3 Marking on the gas spring 9
A.4 Gas spring activation 9
A.5 Connection between pressure tube and the seat mechanism 9
A.6 Holding cone on the seat mechanism 10

Annex B (informative) Guide for choosing the correct strength class 11

B.1 General 11
B.2 User weight 11
B.3 Dimension u 11
B.4 Choosing the correct gas spring 11
B.5 Recommendations for gas springs outside specifications in Table B.1 12
