

DIN 68800-1:2019-06 (E)

Wood preservation - Part 1: General

| Contents | | Page |
|-----------------|---|-------------|
| Foreword | | 4 |
| 1 | Scope | 5 |
| 2 | Normative references | 5 |
| 3 | Terms and definitions..... | 6 |
| 4 | Threat to wood or wood-based panels..... | 9 |
| 4.1 | General | 9 |
| 4.2 | Fungi..... | 10 |
| 4.2.1 | General | 10 |
| 4.2.2 | Wood destroying fungi | 10 |
| 4.2.3 | Staining fungi..... | 10 |
| 4.3 | Insects..... | 10 |
| 4.4 | Wood destroying organisms in sea water | 11 |
| 5 | Use classes | 11 |
| 5.1 | General | 11 |
| 5.2 | Specifics..... | 13 |
| 5.2.1 | UC 0 | 13 |
| 5.2.2 | UC 3 | 14 |
| 5.2.3 | UC 5 | 14 |
| 6 | Measures to protect wood against organisms | 14 |
| 6.1 | General | 14 |
| 6.2 | Structural measures | 14 |
| 6.3 | Use of wood preservatives | 14 |
| 6.4 | Use of preventively protected products made from wood and wood-based panel products with CE marking..... | 15 |
| 6.5 | Physical measures..... | 15 |
| 6.6 | Coatings | 15 |
| 6.7 | Protective systems..... | 15 |
| 6.8 | Natural durability of the wood..... | 15 |
| 6.8.1 | General | 15 |
| 6.8.2 | Use of the durability of timber in the use classes | 16 |
| 7 | Necessity of measures to protect the wood | 18 |
| 7.1 | Necessary | 18 |
| 7.2 | Not necessary..... | 18 |
| 8 | Selection of measures to protect the wood..... | 19 |
| 8.1 | General | 19 |
| 8.2 | Preventive measures for timber in UC 1..... | 20 |
| 8.3 | Preventive measures for timber in UC 2..... | 20 |
| 8.4 | Preventive measures for timber in UC 3.1 | 21 |
| 8.4.1 | Load-bearing components..... | 21 |
| 8.4.2 | Non-load-bearing components | 21 |
| 8.5 | Preventive measures for timber in UC 3.2 | 22 |
| 8.6 | Preventive measures for timber in UC 4..... | 23 |
| 8.7 | Preventive measures for timber in UC 5..... | 23 |
| 8.8 | Measures for controlling an infestation/infection..... | 23 |

| | | |
|--------------|--|----|
| 9 | Planning of wood protection measures | 24 |
| 10 | Requirements for persons carrying out protection work..... | 24 |
| 10.1 | General..... | 24 |
| 10.2 | Specialist companies/qualified specialists for carrying out wood protection measures..... | 24 |
| 10.3 | Execution of wood protection measures | 24 |
| 10.4 | Wood and wood-based products with CE marking..... | 25 |
| Annex A | (informative) Thermal or chemical modification to protect wood | 26 |
| A.1 | General..... | 26 |
| A.2 | Thermally modified timber (TMT) | 26 |
| A.3 | Chemically modified timber (CMT) | 26 |
| Annex B | (informative) Moisture content at the fibre saturation point for common timber species native to Germany | 27 |
| Annex C | (normative) Use classes for wood-based panels..... | 28 |
| C.1 | General..... | 28 |
| C.2 | Assigning use classes..... | 28 |
| Annex D | (informative) Examples of assigning timber components to a use class..... | 29 |
| Annex E | (informative) Information for the planning of wood protection measures for non-load-bearing components..... | 32 |
| E.1 | Criteria for the necessity..... | 32 |
| E.2 | Selection of protective measures | 33 |
| E.3 | Notes on Table E.1 | 33 |
| Bibliography | | 35 |

Figures

| | | |
|------------|---|----|
| Figure D.1 | — Simplified decision process for assigning timber components to a use class..... | 31 |
|------------|---|----|

Tables

| | | |
|-----------|---|----|
| Table 1 | — Use classes (UC) — Description of the general service conditions and the possible threats/stresses and the moisture of the wood used for construction purposes..... | 12 |
| Table 2 | — Natural durability of a type of hardwood that is not listed in DIN EN 350 | 16 |
| Table 3 | — Minimum requirements for the durability of sapwood-free timber with coloured heartwood against fungal infection for assignment to UC 2 to UC 4..... | 16 |
| Table 4 | — Use classes in which timber species that have been proven to be suitable for load-bearing components may be used without additional wood protection measures..... | 17 |
| Table B.1 | — Moisture content at the fibre saturation point for common timber species native to Germany | 27 |
| Table C.1 | — Use of wood-based panels in the various use classes..... | 28 |
| Table D.1 | — Examples of assigning timber components to a use class | 29 |
| Table E.1 | — Examples of the selection of naturally durable timber species in the case of non-load-bearing components with regard to a possible fungal infection | 33 |
