| European foreword ..... |   | 4           |
| 1                       | Scope .....   | 5           |
| 2                       | Normative references .....  | 5           |
| 3                       | Terms and definitions .....   | 6           |
| 4                       | Symbols .....   | 8           |
| 5                       | General requirements .....  | 11          |
| 6                       | Classification .....  | 11          |
| 6.1                     | Adhesive .....  | 11          |
| 6.2                     | Rods, wood products and species .....                                     | 11          |
| 7                       | Bond strength of the adhesive-wood interface .....                        | 11          |
| 7.1                     | General .....   | 11          |
| 7.2                     | Requirements .....  | 12          |
| 7.2.1                   | Bond strength in longitudinal tensile shear test .....                    | 12          |
| 7.2.2                   | Resistance to delamination .....  | 12          |
| 7.2.3                   | Effect of wood shrinkage on the shear strength .....                      | 12          |
| 7.2.4                   | Effect of compression shear and climatic changes .....                    | 12          |
| 7.3                     | Test methods .....  | 12          |
| 7.3.1                   | Determination of bond strength in longitudinal tensile shear test .....   | 12          |
| 7.3.2                   | Determination of resistance to delamination .....                         | 13          |
| 7.3.3                   | Determination of the effect of wood shrinkage on the shear strength ..... | 13          |
| 7.3.4                   | Determination of compression shear and climatic changes .....             | 13          |
| 8                       | Bond shear strength of glued-in steel rods .....                          | 13          |
| 8.1                     | General .....   | 13          |
| 8.2                     | Specimen .....  | 13          |
| 8.2.1                   | Build-up, dimensions .....  | 13          |
| 8.2.2                   | Timber material .....   | 14          |
| 8.2.3                   | Steel rod .....   | 15          |
| 8.3                     | Procedure .....   | 16          |
| 8.3.1                   | Manufacture of bond .....   | 16          |
| 8.3.2                   | Test schemes .....  | 17          |
| 8.3.3                   | Test procedure .....  | 18          |
| 8.4                     | Expression of test results .....  | 20          |
| 8.5                     | Determination of declared characteristic bond shear strength values ..... | 21          |
| 9                       | Determination of bond temperature resistance .....                        | 22          |
| 9.1                     | General .....   | 22          |
| 9.2                     | Specimen .....  | 23          |
| 9.3                     | Procedure .....   | 23          |
| 10                      | Bond creep rupture test at very high and low moisture content .....       | 26          |
| 10.1                    | General .....   | 26          |
| 10.2                    | Specimen .....  | 26          |
| 10.3                    | Procedure .....   | 26          |

|        |  |    |
|--------|--|----|
| 10.4   | Requirement .....  | 26 |
| 11     | Working properties of the adhesive .....   | 27 |
| 11.1   | General .....  | 27 |
| 11.2   | Determination of working life under reference conditions .....                         | 27 |
| 11.3   | Determination of open assembly time .....  | 27 |
| 11.4   | Determination of curing time under reference conditions .....                          | 27 |
| 11.5   | Determination of time to fully cured state .....                                       | 28 |
| 11.5.1 | General .....  | 28 |
| 11.5.2 | Specimens and manufacture .....  | 28 |
| 11.5.3 | Number and treatment of the specimens .....  | 30 |
| 11.5.4 | Test procedures .....  | 30 |
| 11.5.5 | Expression of results .....  | 31 |
| 11.5.6 | Determination of time to fully cured state .....                                       | 31 |
| 11.5.7 | Declared time to fully cured state .....   | 32 |
| 12     | Test report .....  | 32 |
| 12.1   | The adhesive .....   | 32 |
| 12.2   | Preparation of specimens and testing procedure .....                                   | 33 |
| 12.3   | Test results .....   | 33 |
|        | Annex A(informative) Design procedure for glued in rods in GLT, GST, LVL and CLT ..... | 34 |
|        | Annex B(informative) Common alternatives for adhesive infill in drilled holes .....    | 41 |
|        | Bibliography .....   | 42 |
