ISO 9459-5:2007-05 (E)

Solar heating - Domestic water heating systems - Part 5: System performance characterization by means of whole-system tests and computer simulation

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 2

4 Symbols, units and nomenclature 4

5 Apparatus 5
5.1 Mounting and location of the SDHW system 5
5.2 Test facility 8
5.3 Instrumentation 10
5.4 Location of sensors 10

6 Test method 12
6.1 General 12
6.2 Test conditions 12
6.3 Test sequences 14
6.4 Data acquisition and processing 17

7 Identification of system parameters 19
7.1 Dynamic fitting algorithm 19
7.2 Options 19
7.3 Constants 19
7.4 Skip time 20
7.5 Parameters 20

8 Performance prediction 20
8.1 Yearly performance prediction and reporting 20
8.2 Reference conditions 20

Annex A (normative) Basis of dynamic SDHW system testing 21

Annex B (normative) Validation of the test method 24

Annex C (normative) Test report 25

Annex D (informative) Hardware and software recommendations 30

Bibliography 35
