## Solar heating - Domestic water heating systems - Part 5: System performance characterization by means of whole-system tests and computer simulation

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	2
3	Terms and definitions .....	2
4	Symbols, units and nomenclature .....	4
5	Apparatus .....	5
5.1	Mounting and location of the SDHW system .....	5
5.2	Test facility .....	8
5.3	Instrumentation .....	10
5.4	Location of sensors .....	10
6	Test method .....	12
6.1	General .....	12
6.2	Test conditions .....	12
6.3	Test sequences .....	14
6.4	Data acquisition and processing .....	17
7	Identification of system parameters .....	19
7.1	Dynamic fitting algorithm .....	19
7.2	Options .....	19
7.3	Constants .....	19
7.4	Skip time .....	20
7.5	Parameters .....	20
8	Performance prediction .....	20
8.1	Yearly performance prediction and reporting .....	20
8.2	Reference conditions .....	20
Annex A (normative) Basis of dynamic SDHW system testing .....		21
Annex B (normative) Validation of the test method .....		24
Annex C (normative) Test report .....		25
Annex D (informative) Hardware and software recommendations .....		30
Bibliography .....		35
