

DIN EN 15270:2008-03 (E)

Pellet burners for small heating boilers - Definitions, requirements, testing, marking

Contents		Page
Foreword		3
1 Scope		4
2 Normative references		4
3 Terms, definitions and symbols		4
4 Classification and groupings for pellet burners		8
5 Requirements		9
6 Testing		16
7 Conformity evaluation		25
8 Marking		25
9 Operating instructions		25
10 Test report		27
controls 34		
functions using electronic devices for pellet burners		38
Bibliography		49
Annex C (normative) Requirements for electronic burner start up functions and pellet-air ratio Annex E (informative) Example of risk assessment and the allocation of safety level for control Annex I (informative) Conformity evaluation		46
Annex G (informative) Measurement methods for some physical parameters		41
Annex H (normative) Determination of organic gaseous compounds content		44
Annex F (informative) Long term stability test (optional)		40
Annex D (informative) Example of risk assessment to prevent back burning		36
Annex B (informative) Fireproof non-metallic materials for pellet burners		32
Annex A (informative) Vocabulary		29
