

ISO 9847:1992-07 (E)

Solar energy; calibration of field pyranometers by comparison to a reference pyranometer

| Contents | | Page |
|-----------------|---|-------------|
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Definitions | 1 |
| 4 | Apparatus | 2 |
| 5 | Calibration procedure | 3 |
| 6 | Certificate of calibration | 7 |
| 7 | Precision and accuracy | 7 |
| Annexes | | |
| A | Calibration devices using artificial sources..... | 8 |
| B | Interferences and precautions | 11 |
| C | Computation of daily average solar angle | 13 |
| D | Procedure to determine the ratio of the directional response | 14 |
| E | Bibliography | 15 |
