

# DIN EN 15727:2010-10 (E)

## Ventilation for buildings - Ducts and ductwork components, leakage classification and testing

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	6
2	Normative references .....	6
3	Terms, definitions and symbols .....	6
3.1	Terms and definitions .....	6
3.2	Symbols .....	8
4	Instrumentation .....	9
4.1	Calibration .....	9
4.2	Air flow rate measurement .....	9
4.3	Pressure measurement .....	9
4.4	Temperature measurement .....	9
5	Leakage .....	9
6	Test rig specifications .....	10
7	Test procedure .....	11
7.1	Method for testing a technical ductwork product .....	11
7.2	Calculation of the total joint length (L) .....	11
7.3	Calculation of the virtual product surface area (Ac) .....	11
7.4	Correction of leakage .....	12
7.5	Calculation of the product tightness factor (fc) .....	12
8	Test report .....	12
Bibliography .....		13
