DIN EN 303-5:2012-10 (E)

Heating boilers - Part 5: Heating boilers for solid fuels, manually and automatical ly stoked, nominal heat output of up to 500 kW - Terminology, requirements, testing and marking

Contents

Page

Foreword 5

Introduction 7

1 Scope 8
1.1 General 8
1.2 Fuels 8
1.2.1 Biogenic fuels 9
1.2.2 Fossil fuels 9
1.2.3 Other solid fuels 9

2 Normative references 9

3 Terms and definitions 12

4 Requirements 17
4.1 General requirements 17
4.2 Construction requirements 18
4.2.1 Production documentation 18
4.2.2 Heating boilers made of steel and non-ferrous materials 19
4.2.3 Boilers made of cast materials 24
4.2.4 Design requirements 25
4.3 Safety requirements 28
4.3.1 General 28
4.3.2 Manual stoking 28
4.3.3 Safety against back burning for automatic stoked boilers 28
4.3.4 Safety against fuel overload of the boiler or interruption in fuel supply 32
4.3.5 Safety against lack of air supply or insufficient combustion 32
4.3.6 Surface temperatures 32
4.3.7 Leakage of the combustion system 32
4.3.8 Temperature control and limiting devices 33
4.3.9 Heating boiler accessories 34
4.4 Performance requirements 35
4.4.1 General 35
4.4.2 Boiler efficiency 35
4.4.3 Flue gas temperature 36
4.4.4 Draught 36
4.4.5 Combustion period 36
4.4.6 Minimum heat output 36
4.4.7 Emission limits 37

5 Test 38
5.1 Test conditions 38
5.1.1 General 38
5.1.2 Choice of boiler and fittings to be tested 39
5.1.3 Condition of the boiler 39
5.1.4 Type test 39
5.2 Measuring instruments and methods 39
5.3 Test fuel 40

5.4 Pressure test for boilers of sheet or sheet metal of non-ferrous metal ... 42
5.4.1 Tests to be carried out before production ... 42
5.4.2 Test during production ... 42
5.5 Pressure test for boilers of cast iron or non-ferrous metals ... 42
5.5.1 Test to be carried out before production ... 42
5.5.2 Test during production ... 43
5.6 Test for gas side soundness ... 44
5.7 Conducting the boiler performance test ... 44
5.7.1 General ... 44
5.7.2 Setting up the test rig ... 45
5.7.3 Measured quantities ... 45
5.7.4 Test method and test duration ... 46
5.8 Determination of the heat output and the efficiency of the boiler ... 47
5.8.1 Method for the measurement of the heat output ... 47
5.8.2 Determining the nominal heat output ... 47
5.8.3 Determining the minimum heat output ... 47
5.8.4 Determination of the boiler efficiency (direct method) ... 48
5.8.5 Electrical consumption ... 48
5.9 Determination of the emission values ... 48
5.9.1 Heating boiler with manual stoking ... 48
5.9.2 Heating boiler with automatic stoking ... 48
5.9.3 Determination of the emissions at minimum heat output ... 48
5.10 Calculation ... 49
5.10.1 Boiler heat output ... 49
5.10.2 The heat input ... 49
5.10.3 Boiler efficiency ... 49
5.10.4 Emissions ... 49
5.11 Determination of the waterside resistance ... 50
5.12 Surface temperature ... 50
5.13 Function check of the temperature controller and safety temperature limiter at the boiler 50
5.14 Function test for the rapidly disconnect able firing system ... 51
5.15 Function test on the device for dissipating excess heat (partly or non disconnectable firing system) ... 51
5.16 Check of the safety and risk assessment ... 51
5.16.1 General ... 51
5.16.2 Safety test of consequences of fuel overload and effect of a blockage of the fuel supply . 53
5.16.3 Loss of combustion air supply ... 53
5.16.4 Resistance to thermal conductance ... 53
5.16.5 Additional tests for alternative verification of the safety against back burning ... 53

6 Test report and other documents ... 54

7 Marking ... 55
7.1 General ... 55
7.2 Information on the boiler plate ... 55
7.3 Boiler plate requirements ... 55

8 Technical documentation, supplied with boiler ... 55
8.1 General ... 55
8.2 Technical information and installation instructions ... 55
8.3 Operating instructions ... 57

Annex A (informative) Manual measurement of particles in the gas flow, gravimetric determination of particle load with filter systems ... 58

Annex B (normative) Design criteria for solutions to prevent back burning ... 61

Annex C (informative) A-deviations ... 66

C.1 General ... 66
C.2 Deviations from Austria: ... 66
C.2.1 General ... 66

C.2.2 Boiler efficiency for nominal heat output and minimum heat output 66
C.2.3 Emission limits 67
C.3 Deviations from CROATIA 68
C.4 Deviations from DENMARK 69
C.4.1 Subclause 4.4.2 Boiler Efficiency 69
C.4.2 Subclause 4.4.7 Emission Limits 69
C.4.3 Subclause 5.1 Test Base 70
C.5 Deviations from Germany 70
C.5.1 Clause 4.4.7 Emission limits 70
C.5.2 Clause 5.9 72
C.6 Deviations from Switzerland 72
C.7 Deviations from United Kingdom 73
C.8 Deviations for Italy 77

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC Machinery Directive 79
