

DIN EN 161:2013-04 (E)

Automatic shut-off valves for gas burners and gas appliances (includes Amendment A3:2013)

Contents		Page
Foreword		4
1 Scope		6
2 Normative references		6
3 Terms and definitions		7
4 Classification		8
5 Units of measurement and test conditions		9
6 Construction requirements		9
7 Performance		14
8 EMC/Electrical requirements		22
9 Marking, installation and operating instructions		24
Annex A (informative) Gas connections in common use in the various countries		26
Annex B (informative) Leak-tightness test - volumetric method		27
Annex C (informative) Leak-tightness test - pressure loss method		28
Annex D (normative) Conversion of pressure loss into leakage rate		29
Annex E (normative) Electrical/electronic component fault modes		30
Annex F (normative) Additional requirements for safety accessories and pressure accessories as defined in EU Directive 97/23/EC		31
Annex G (normative) Materials for pressurized parts		32
Annex H (informative) Additional materials for pressurized parts		33
Annex I (normative) Requirements for controls used in DC supplied gas burners and gas burning appliances		34
Annex AA (normative) %Method for the determination of Performance Level (PL)&		35
Annex BB (informative) %Model of a FMEA for valves&		38
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2009/142/EC relating to appliances burning gaseous fuels		55
Bibliography		57
