

ISO 14644-10:2013-03 (E)

Cleanrooms and associated controlled environments - Part 10: Classification of surface cleanliness by chemical concentration

Contents		Page
Foreword		iv
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Classification	2
4.1	Principles for establishing classification of clean surfaces in cleanrooms and controlled environments	2
4.2	Classification for surface cleanliness by chemical concentration	2
4.3	ISO-SCC designation	4
4.4	Converter for substances into surface atomic concentration	4
5	Measuring and monitoring the cleanliness of surfaces for chemical contamination and demonstration of compliance	5
5.1	Criteria for good cleanliness assessment	5
5.2	Documentation and reporting	6
Annex A (informative) Conversion between different unit expressions of surface concentration for chemical substances		8
Annex B (informative) Parameters influencing testing and interpretation of results		15
Annex C (informative) Essential considerations for a good cleanliness assessment		16
Annex D (informative) Methods for testing surface cleanliness by chemical concentration		17
Annex E (informative) Test record documentation		28
Bibliography		29
