Test methods for solar collectors - Part 2: Qualification test procedures

Contents

Page

1 Scope 1

2 Normative references 1

3 Definitions 2

4 General 2

5 Internal pressure tests for absorbers 2

6 High-temperature resistance test 10

7 Exposure test 13

8 External thermal shock test 14

9 Internal thermal shock test for liquid-heating collectors 16

10 Rain Penetration test 17

11 Freezing test 18

12 Impact resistance test (optional) 20

13 Final inspection 21

14 Test report 21

Annexes

A Test format sheets 23

B Stagnation temperature of liquid heating collectors 46
