European foreword 4

1 Scope 5

2 Normative references 5

3 Terms, definitions and symbols 6
3.1 Terms and definitions 6
3.2 Symbols 7

4 Functions 8

5 Description and testing of multifunctional units 8

6 Performance testing of aerodynamic characteristics 13
6.1 Leakages 13
6.1.1 Test method 13
6.1.2 Requirements 13
6.2 Air flow/pressure curve 13
6.3 Reference point for aerodynamic conditions 13
6.4 Pressure drop setting 14

7 Performance testing of thermal characteristics 15
7.1 General 15
7.2 Air flow settings and uncertainty 15
7.2.1 General 15
7.2.2 Configuration without any recirculation 16
7.2.3 Configuration with recirculation from outdoor air to exhaust air 16
7.2.4 Configuration with recirculation from extract to supply air 17
7.2.5 Configuration with two recirculations 17
7.3 Ventilation heat recovery performance 18
7.3.1 General 18
7.3.2 Air flow test conditions 18
7.3.3 Test procedure 19
7.3.4 Data to be recorded 19
7.3.5 Calculations 21
7.4 Ventilation and domestic hot water production 21
7.4.1 General 21
7.4.2 Test procedure 21
7.4.3 Data to be recorded 22
7.4.4 Performance rating calculations 24
7.5 Ventilation with hydronic space heating/cooling 24
7.5.1 General 24
7.5.2 Temperature test conditions 25
7.5.3 Test procedure 27
7.5.4 Data to be recorded 27
7.5.5 Performance rating calculations 29
7.6 Ventilation combined with supply air heating/cooling 31
7.6.1 General 31

7.6.2 Temperature test conditions 31
7.6.3 Test procedure 31
7.6.4 Data to be recorded 32
7.6.5 Performance rating calculations 34
7.7 Ventilation combined with both hydronic and supply air heating/cooling 35
7.7.1 General 35
7.7.2 Test procedure 35
7.7.3 Data to be recorded 36
7.7.4 Performance rating calculations 39
7.8 Ventilation combined with heating and hot water production 40
7.8.1 General 40
7.8.2 Test procedure 40
7.8.3 Data to be recorded 42
7.8.4 Performance rating calculations 45
7.9 Ventilation combined with cooling and hot water production 48
7.9.1 General 48
7.9.2 Test procedure 48
7.9.3 Data to be recorded 50
7.9.4 Performance rating calculations 53

8 Performance testing of acoustic characteristics 57
8.1 General 57
8.2 Configurations to be tested 57
8.3 Performance testing ventilation only 57
8.4 Performance testing ventilation and hydronic heating 57
8.5 Performance testing ventilation and supply air heating 57
8.6 Performance testing ventilation and supply air heating and hydronic heating 57
8.7 Performance testing ventilation and domestic hot water 58

9 Test report 58
9.1 General information 58
9.2 Additional information 59
9.3 Rating test results 59
9.3.1 Product specifications 59
9.3.2 Leakages 59
9.3.3 Air flow/pressure curve 59
9.3.4 Temperature ratios of ventilation function 59
9.3.5 Performance data of ventilation and domestic hot water functions 59
9.3.6 Performance data of ventilation and hydronic space heating and/or cooling 59
9.3.7 Performance data of ventilation and air heating and/or cooling 59
9.3.8 Performance data of ventilation with both hydronic and air heating/cooling 59
9.3.9 Performance data of ventilation with heating and hot water production 59
9.3.10 Performance data of ventilation with cooling and hot water production 59
9.4 Acoustic characteristics 60
