DIN EN 12977-5:2018-07 (E)

Thermal solar systems and components - Custom built systems - Part 5: Performance test methods for control equipment

Contents

Page

European foreword 5

Introduction 6

1 Scope 7

2 Normative references 8

3 Terms and definitions 9

4 Symbols and abbreviations 10

5 Controller classification (including equipment classification) 10
5.1 Controller 10
5.2 Sensor 11
5.3 Actuator 11

6 Requirements 12
6.1 General requirements 12
6.1.1 Basic principles 12
6.1.2 Electrical safety 12
6.1.3 Freeze damage protection 12
6.1.4 Scald protection 12
6.1.5 High temperature protection for materials and components 12
6.1.6 Lightning 13
6.2 Controllers, system clocks, timers and counters 13
6.2.1 General 13
6.2.2 Accuracy requirements for controllers 13
6.2.3 Accuracy requirements for system clocks, timers and counters 13
6.3 Sensors 13
6.3.1 Temperature sensors 13
6.3.2 Irradiance sensors 14
6.3.3 Other sensors 15
6.4 Indicators 16
6.5 Actuators 16
6.5.1 Circulation pumps 16
6.5.2 Solenoid and motor valves 16
6.5.3 Relays 17
6.6 Initial operation and commissioning 17
6.7 Documentation 17

7 Testing of sensors 18
7.1 General 18
7.2 Testing of temperature sensors 18
7.2.1 General 18
7.2.2 Test equipment 18
7.2.3 Installation of sensors 19
7.2.4 Testing the high-temperature resistance of temperature sensors 19
7.2.5 Testing of the accuracy of temperature sensors 20
7.3 Testing of solar irradiance sensors 22
7.3.1 General 22

7.3.2 Test equipment ... 22
7.3.3 Installation of sensors ... 23
7.3.4 Testing sensor resistance against extreme operating conditions ... 23
7.3.5 Testing of the accuracy of solar irradiance sensors ... 25
7.4 Testing of further sensors and measuring equipment ... 26

8 Testing of system clocks, timers and counters ... 26
8.1 General ... 26
8.2 Test equipment ... 26
8.3 Installation of system clocks, timers and counters ... 27
8.4 Test procedure ... 27
8.5 Data processing and evaluation ... 28
8.5.1 General ... 28
8.5.2 System clocks and timers ... 28
8.5.3 Counters ... 28

9 Function testing of simple differential thermostats ... 28
9.1 General ... 28
9.2 Test equipment ... 28
9.2.1 General ... 28
9.2.2 Simulation box approach ... 28
9.2.3 Tempering device/temperature calibrators or calibration baths approach ... 29
9.2.4 Input/output emulator approach ... 29
9.3 Installation of differential thermostats and/or sensors ... 30
9.3.1 General ... 30
9.3.2 Differential thermostats ... 30
9.3.3 Sensors ... 30
9.4 Test procedure ... 30
9.4.1 General ... 30
9.4.2 Test procedure, simulation box approach ... 30
9.4.3 Test procedure using tempering devices, temperature calibrators or calibration baths ... 31

10 Function testing of multi-function controllers ... 32
10.1 General ... 32
10.2 Principle of multi-function controller testing ... 32
10.3 Intellectual property of the manufacturer ... 33
10.4 Test facility for multi-function controller testing ... 33
10.4.1 General ... 33
10.4.2 Requirements for simulation of temperature sensors ... 33
10.4.3 Requirements on recording of controller response ... 33
10.4.4 Test facility with input/output emulator ... 34
10.5 Preliminary steps when using a test facility provided with an input/output emulator ... 35
10.5.1 General ... 35
10.5.2 Adaptation of the input/output emulator and testing/measuring devices ... 35
10.5.3 Wiring of controller, input/output emulator and test site computer ... 36
10.5.4 Setting of controller parameters ... 36
10.5.5 Calibration of the input/output emulator ... 36
10.6 Test procedure ... 37
10.6.1 General ... 37
10.6.2 Test sequences ... 37
10.7 Data acquisition and processing ... 39
10.7.1 General ... 39
10.7.2 Data acquisition ... 39
10.7.3 Data processing ... 39

11 Testing of actuators and additional control equipment ... 40
11.1 General ... 40
11.2 Determination of the electric power consumption of actuators and further components ... 40
11.3 Measuring the electric power of pumps with varying power consumption ... 40

12 Documentation 40
12.1 General 40
12.2 General information 40
12.3 Marking 41
12.4 Information for the installer, assembly and installation 41
12.5 Information for the user, operation and maintenance 41

13 Test report 42

Annex A (informative) Testing the electrical supply voltage dependence of control equipment 43

A.1 General 43
A.2 Test equipment 43
A.3 Test procedure 43
A.4 Data processing 44
