|-------------------------|--|-------------|
| European foreword ..... |  | 5           |
| Introduction .....      |  | 6           |
| 1                       | Scope .....  | 7           |
| 2                       | Normative references .....   | 8           |
| 3                       | Terms and definitions .....  | 9           |
| 4                       | Symbols and abbreviations .....                                      | 10          |
| 5                       | Controller classification (including equipment classification) ..... | 10          |
| 5.1                     | Controller .....   | 10          |
| 5.2                     | Sensor .....   | 11          |
| 5.3                     | Actuator .....   | 11          |
| 6                       | Requirements .....   | 12          |
| 6.1                     | General requirements .....   | 12          |
| 6.1.1                   | Basic principles .....   | 12          |
| 6.1.2                   | Electrical safety .....  | 12          |
| 6.1.3                   | Freeze damage protection .....                                       | 12          |
| 6.1.4                   | Scald protection .....   | 12          |
| 6.1.5                   | High temperature protection for materials and components .....       | 12          |
| 6.1.6                   | Lightning .....  | 13          |
| 6.2                     | Controllers, system clocks, timers and counters .....                | 13          |
| 6.2.1                   | General .....  | 13          |
| 6.2.2                   | Accuracy requirements for controllers .....                          | 13          |
| 6.2.3                   | Accuracy requirements for system clocks, timers and counters .....   | 13          |
| 6.3                     | Sensors .....  | 13          |
| 6.3.1                   | Temperature sensors .....  | 13          |
| 6.3.2                   | Irradiance sensors .....   | 14          |
| 6.3.3                   | Other sensors .....  | 15          |
| 6.4                     | Indicators .....   | 16          |
| 6.5                     | Actuators .....  | 16          |
| 6.5.1                   | Circulation pumps .....  | 16          |
| 6.5.2                   | Solenoid and motor valves .....                                      | 16          |
| 6.5.3                   | Relays .....   | 17          |
| 6.6                     | Initial operation and commissioning .....                            | 17          |
| 6.7                     | Documentation .....  | 17          |
| 7                       | Testing of sensors .....   | 18          |
| 7.1                     | General .....  | 18          |
| 7.2                     | Testing of temperature sensors .....                                 | 18          |
| 7.2.1                   | General .....  | 18          |
| 7.2.2                   | Test equipment .....   | 18          |
| 7.2.3                   | Installation of sensors .....  | 19          |
| 7.2.4                   | Testing the high-temperature resistance of temperature sensors ..... | 19          |
| 7.2.5                   | Testing of the accuracy of temperature sensors .....                 | 20          |
| 7.3                     | Testing of solar irradiance sensors .....                            | 22          |
| 7.3.1                   | General .....  | 22          |

|        |   |    |
|--------|---|----|
| 7.3.2  | Test equipment .....  | 22 |
| 7.3.3  | Installation of sensors .....   | 23 |
| 7.3.4  | Testing sensor resistance against extreme operating conditions .....                      | 23 |
| 7.3.5  | Testing of the accuracy of solar irradiance sensors .....                                 | 25 |
| 7.4    | Testing of further sensors and measuring equipment .....                                  | 26 |
| 8      | Testing of system clocks, timers and counters .....                                       | 26 |
| 8.1    | General .....   | 26 |
| 8.2    | Test equipment .....  | 26 |
| 8.3    | Installation of system clocks, timers and counters .....                                  | 27 |
| 8.4    | Test procedure .....  | 27 |
| 8.5    | Data processing and evaluation .....  | 28 |
| 8.5.1  | General .....   | 28 |
| 8.5.2  | System clocks and timers .....  | 28 |
| 8.5.3  | Counters .....  | 28 |
| 9      | Function testing of simple differential thermostats .....                                 | 28 |
| 9.1    | General .....   | 28 |
| 9.2    | Test equipment .....  | 28 |
| 9.2.1  | General .....   | 28 |
| 9.2.2  | Simulation box approach .....   | 28 |
| 9.2.3  | Tempering device/temperature calibrators or calibration baths approach .....              | 29 |
| 9.2.4  | Input/output emulator approach .....  | 29 |
| 9.3    | Installation of differential thermostats and/or sensors .....                             | 30 |
| 9.3.1  | General .....   | 30 |
| 9.3.2  | Differential thermostats .....  | 30 |
| 9.3.3  | Sensors .....   | 30 |
| 9.4    | Test procedure .....  | 30 |
| 9.4.1  | General .....   | 30 |
| 9.4.2  | Test procedure, simulation box approach .....   | 30 |
| 9.4.3  | Test procedure using tempering devices, temperature calibrators or calibration baths ...  | 31 |
| 10     | Function testing of multi-function controllers .....                                      | 32 |
| 10.1   | General .....   | 32 |
| 10.2   | Principle of multi-function controller testing .....                                      | 32 |
| 10.3   | Intellectual property of the manufacturer .....   | 33 |
| 10.4   | Test facility for multi-function controller testing .....                                 | 33 |
| 10.4.1 | General .....   | 33 |
| 10.4.2 | Requirements for simulation of temperature sensors .....                                  | 33 |
| 10.4.3 | Requirements on recording of controller response .....                                    | 33 |
| 10.4.4 | Test facility with input/output emulator .....  | 34 |
| 10.5   | Preliminary steps when using a test facility provided with an input/output emulator ..... | 35 |
| 10.5.1 | General .....   | 35 |
| 10.5.2 | Adaptation of the input/output emulator and testing/measuring devices .....               | 35 |
| 10.5.3 | Wiring of controller, input/output emulator and test site computer .....                  | 36 |
| 10.5.4 | Setting of controller parameters .....  | 36 |
| 10.5.5 | Calibration of the input/output emulator .....  | 36 |
| 10.6   | Test procedure .....  | 37 |
| 10.6.1 | General .....   | 37 |
| 10.6.2 | Test sequences .....  | 37 |
| 10.7   | Data acquisition and processing .....   | 39 |
| 10.7.1 | General .....   | 39 |
| 10.7.2 | Data acquisition .....  | 39 |
| 10.7.3 | Data processing .....   | 39 |
| 11     | Testing of actuators and additional control equipment .....                               | 40 |
| 11.1   | General .....   | 40 |
| 11.2   | Determination of the electric power consumption of actuators and further components ..    | 40 |
| 11.3   | Measuring the electric power of pumps with varying power consumption .....                | 40 |

|  |   |           |
