## Solar energy - Collector fields - Check of performance

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | iv          |
| Introduction ..... |   | v           |
| <b>1</b>           | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>           | <b>Normative references .....</b>   | <b>1</b>    |
| <b>3</b>           | <b>Terms and definitions .....</b>  | <b>1</b>    |
| <b>4</b>           | <b>Symbols .....</b>  | <b>1</b>    |
| <b>5</b>           | <b>Procedure for checking the power performance of solar thermal collector fields .....</b> | <b>5</b>    |
| 5.1                | Stating an estimate for the thermal power output of a collector field .....                 | 5           |
| 5.2                | Calculating power output .....  | 5           |
| 5.2.1              | General .....   | 5           |
| 5.2.2              | Non-concentrating collectors -- Formula (1) .....   | 6           |
| 5.2.3              | Non- or low-focussing collectors -- Formula (2) .....                                       | 7           |
| 5.2.4              | Focussing collectors with high concentration ratio -- Formula (3) .....                     | 7           |
| 5.3                | Stating a performance estimate .....  | 7           |
| 5.4                | Restrictions on operating conditions .....  | 7           |
| 5.5                | Shadows .....   | 8           |
| 5.5.1              | Shadows on fixed collectors in rows .....   | 8           |
| 5.5.2              | Shadows on one-axis tracking collectors in row .....  | 9           |
| 5.6                | Collector incidence angle .....   | 11          |
| 5.7                | Example of setting up an equation for calculating performance estimate .....                | 11          |
| 5.8                | Determination of potential valid periods .....  | 12          |
| 5.9                | Checking collector field power performance .....  | 12          |
| <b>6</b>           | <b>Procedure for checking the daily yield of solar thermal collector fields .....</b>       | <b>14</b>   |
| 6.1                | Stating an estimate for the daily yield of a collector field .....                          | 14          |
| 6.2                | Calculating daily energy yield .....  | 14          |
| 6.2.1              | General .....   | 14          |
| 6.2.2              | Non-tracking and non-concentrating collectors -- Formula (20) .....                         | 15          |
| 6.3                | Stating a performance estimate .....  | 15          |
| 6.4                | Restrictions on operating conditions .....  | 16          |
| 6.5                | Shadows .....   | 16          |
| 6.6                | Collector incidence angle .....   | 16          |
| 6.7                | Example of setting up an equation for calculating performance estimate .....                | 16          |
| 6.8                | Determination of potential valid periods .....  | 17          |
| 6.9                | Checking collector field daily yield performance .....                                      | 18          |
| <b>7</b>           | <b>Measurements needed .....</b>  | <b>18</b>   |
| 7.1                | General .....   | 18          |
| 7.2                | Requirements on measurements and sensors .....  | 20          |
| 7.2.1              | Accuracy .....  | 20          |
| 7.2.2              | Time .....  | 21          |
| 7.2.3              | Solar radiation measurement .....   | 22          |
| 7.2.4              | Temperature measurements .....  | 23          |
| 7.2.5              | Flow rate measurement .....   | 24          |
| 7.2.6              | Power measurement/calculation .....   | 24          |
| 7.2.7              | Measurement of wind speed .....   | 24          |

|            |   |           |
