## Cleanrooms and associated controlled environments - Part 7: Separative devices (clean air hoods, gloveboxes, isolators and mini-environments)

---

Contents	Page
Foreword .....	iv
Introduction .....	v
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	2
4 Requirements .....	3
5 Design and construction .....	5
6 Access devices .....	6
6.1 Use .....	6
6.2 Manual operation .....	6
6.3 Robotic handling .....	7
7 Transfer devices .....	7
7.1 Use .....	7
7.2 Selection .....	7
7.3 Fail-safe design .....	7
8 Siting and installing .....	7
9 Testing and approval .....	8
9.1 General .....	8
9.2 Glove breach test .....	8
9.3 Operating differential pressure .....	8
9.4 Leak testing .....	8
9.5 Periodic testing .....	9
Annex A (informative) Separation continuum concept .....	10
Annex B (informative) Air-handling systems and gas systems .....	13
Annex C (informative) Access devices .....	16
Annex D (informative) Examples of transfer devices .....	22
Annex E (informative) Leak testing .....	31
Annex F (informative) Parjo leak test method .....	40
Bibliography .....	51
