European foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 7
3.1 Terms relating to the AI Act 7
3.2 Terms related to the risk management system 10
3.3 Terms relating to testing 12
3.4 Terms related to the AI system 13
3.5 Terms related to natural persons 14
3.6 Terms related to the risk management process 16

4 Requirements for the *risk management* system 19
4.1 *Risk management process* 19
4.2 Management responsibilities 21
4.2.1 *Risk management process* implementation and review 21
4.2.2 *Risk management* policy for establishing the *risk* acceptability criteria 22
4.3 Competence of personnel 22
4.4 *Risk* acceptability criteria 23
4.4.1 General requirements for *risk* acceptability criteria 23
4.4.2 *Process* for establishing and updating *risk* acceptability criteria for *residual risk* 24
4.4.3 *Process* for establishing *risk* acceptability criteria for the overall *residual risk* 26
4.5 *Risk management* plan 27
4.6 *Risk management file* 27

5 Risk management process and AI system life cycle 28

6 Risk analysis 31
6.1 General 31
6.2 *Risk* identification 32
6.2.1 *Intended purpose* 32
6.2.2 *Reasonably foreseeable misuse* 33
6.2.3 Identification of the *AI system*'s characteristics related to *risks* 33
6.2.4 Identification of *hazards*, *risk* scenarios and *hazardous situations* 34
6.3 Risk estimation 37

7 *Risk evaluation* 39

8 *Testing* 40
8.1 General 40
8.2 *Test plan* 41
8.3 *Real-world conditions testing* 42
8.4 Test monitoring and test reporting 43

9 *Risk control* 43
9.1 Hierarchy of *risk control* 43
9.1.1 General 43
9.1.2 Applying the hierarchy of *risk control* 44
9.2 Implementation and *verification* of *risk control measures* 46
9.3 *Residual risk evaluation* 47

9.4 Completeness of *risk control* ... 47
10 Evaluation of overall *residual risk* ... 47
11 *Risk management* review ... 48
12 *Pre-market* and *post-market* activities ... 49
12.1 General ... 49
12.2 Information collection ... 49
12.3 Information review ... 50
12.4 Actions to take ... 50
Annex A (informative) Examples of *hazards* and related *risk* scenarios, *hazardous situations* and *harms* ... 52
Annex B (informative) *Risk management process* and concepts overview ... 56
B.1 *Risk management process* ... 56
B.2 Relationship between *hazard*, *risk* scenario, *hazardous situation* and *harm* ... 58
Annex C (informative) *Fundamental rights* considerations ... 59
C.1 General ... 59
C.2 Variation in *fundamental rights* protection ... 59
C.2.1 General ... 59
C.2.2 Who bears legal obligations to respect *fundamental rights*? ... 59
C.2.3 What is the scope, strength and character for protecting a fundamental right? ... 60
C.2.3.1 Scope ... 60
C.2.3.2 Strength ... 60
C.2.3.3 The character of the right ... 60
C.3 Establishing *risk* acceptability criteria for *fundamental rights interferences* ... 61
C.3.1 General ... 61
C.3.2 Assessing the extent of an *interference* with *fundamental rights* ... 61
Annex D (informative) *Objective evidence* in relation to the establishment of *risk* acceptability criteria ... 64
Annex E (informative) ISO 31000 ... 65
Annex ZA (informative) Relationship between this European Standard and the essential requirements of aimed to be covered essential requirements of Regulation 2024/1689 aimed to be covered ... 66
Bibliography ... 67

Figures

Figure 1 — A schematic representation of the *risk management process* ... 21
Figure 2 — Illustration of the relationship between the *AI system life cycle* stages and the *risk management process* ... 30
Figure B.1 — *Risk management process* diagram for *AI systems* with references to clauses ... 57
Figure B.2 — Illustration of the relationship between *hazard*, *risk* scenario, *hazardous situation* and *harm* ... 58

Tables

Table A.1 — Relationship between *hazards*, *risk* scenarios, *hazardous situations* and the *harm* that can occur ... 52
Table ZA.1 — Correspondence between this European Standard and Regulation 2024/1689 ... 66
