

ISO/IEC 23004-6:2008-02 (E)

Information technology - Multimedia Middleware - Part 6: Fault management

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	Specification terms and definitions	1
3.2	Realization terms and definitions	6
4	Abbreviated terms	6
5	Overview of interface suites	6
6	Fault Management interface suites	8
6.1	Interfaces for controlling Fault Management	8
6.2	Interfaces for Fault Management coordination	15
7	Realization overview	23
7.1	Introduction	23
7.2	Concepts and terminology	24
7.3	Assumptions and capabilities	25
7.4	Entities and responsibilities	26
8	Fault Management realization	26
8.1	Initial Situation	26
8.2	The basic principle	27
8.3	Roles	28
8.4	Interaction with the System Integrity Management Framework	35
Annex A (informative) Fault tolerance techniques		36
Annex B (informative) Example scenarios		42
Bibliography		44
