Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms, definitions and abbreviated terms 2
3.1 Terms and definitions 2
3.2 Abbreviated terms 5

4 Notations 5

5 Conforming files and equipment 5
5.1 General 5
5.2 PDF/VT-1 conformance 6
5.3 PDF/VT-2 conformance 6
5.4 PDF/VT-2s conformance 6
5.5 All PDF/VT file conformance levels 6
5.6 Validation of PDF/VT files 6

6 Technical requirements 7
6.1 General 7
6.2 PDF/VT file requirements 7
6.3 PDF/VT-1 and PDF/VT-2 file identification 7
6.4 Architecture 8
6.5 Document part hierarchy 9
6.6 Document part metadata (DPM) 11
6.7 Recurring graphical object definitions 12

Annex A (normative) Use of multipart MIME for streamed generation of PDF/VT data 16

Annex B (informative) PDF/X conformance summary 18

Annex C (informative) Example DPart structure 19

Annex D (normative) XML representation of the document part hierarchy 26

Annex E (normative) Naming conventions for DPM keys 31

Annex F (normative) Determining XObject equivalence 32
