DIN ISO 7478:1989-11 (E)

Data communication; Multilink procedures; Identical with ISO 7478:1987 (Status as of 1989)

Inhalt

Seite

0 Introduction 1

1 Scope and field of application 1

2 Definitions and parameters 1

3 Multilink frame format 3

4 Transmitter operation 3
4.1 General 3
4.2 Transmission of multilink frames 3
4.3 Transmitter flow control 5
4.4 Retransmission 5
4.5 Link failure 5
4.6 Transmitter reconfiguration 5

5 Receiver operation 6
5.1 General 6
5.2 Reception of multilink frames 6
5.3 Resequencing 6
5.4 Detecting lost multilink frames 7
5.5 Receiver flow control 8

6 Initializing the MLP 8

7 Resetting the MLP 8

Annex Examples of multilink resetting procedures (This annex does not form part of the Standard.) 10
