## Information technology - MPEG systems technologies - Part 4: Codec configuration representation

---

<b>Contents</b>	<b>Page</b>
Foreword .....	iv
Introduction .....	v
1 <b>Scope</b> .....	1
2 <b>Normative references</b> .....	1
3 <b>Terms and definitions</b> .....	1
4 <b>Functional unit network description</b> .....	3
5 <b>Bitstream syntax description</b> .....	5
6 <b>Model instantiation</b> .....	6
<b>Annex A (normative) Functional unit network description</b> .....	7
<b>Annex B (informative) Examples of FU network description</b> .....	13
<b>Annex C (normative) Specification of RVC-BSDL</b> .....	15
<b>Annex D (normative) Specification of RVC-CAL language</b> .....	29
<b>Annex E (informative) Instantiation of bitstream syntax parser from bitstream syntax descriptions</b> .	51
<b>Annex F (informative) Relation between codec configuration representation and multimedia middleware (M3W)</b> .....	56
<b>Bibliography</b> .....	57
