

ISO/IEC/IEEE 31320-1:2012-09 (E)

Information technology - Modeling Languages - Part 1: Syntax and Semantics for IDEF0

Contents	Page
1. Overview.....	1
1.1 Scope.....	1
1.2 Purpose.....	1
2. Definitions, acronyms, and abbreviations	2
2.1 Definitions.....	2
2.2 Acronyms and abbreviations	8
3. References.....	9
4. IDEF0 models	9
5. IDEF0 syntax	9
5.1 Boxes.....	10
5.2 Arrows and arrow segments.....	10
5.3 Names and labels.....	10
5.4 Basic box/arrow syntax	12
5.5 Call arrows	12
6. IDEF0 semantics	13
6.1 Box/arrow semantics.....	13
6.2 Branching and joining arrows.....	15
6.3 Arrow meaning conventions	17
6.4 Ambiguous arrow segments	18
6.5 Ambiguous arrow attachments.....	18
6.6 Arrow role conventions.....	19
6.7 Activations	19
6.8 Concurrent activation	19
7. IDEF0 diagrams.....	20
7.1 Diagram identification.....	20
7.2 A-0 context diagram	20
7.3 Model name.....	21
7.4 Model viewpoint.....	21
7.5 Model purpose	22
7.6 Optional context diagrams	22
7.7 Decomposition diagrams.....	24
7.8 Parent/child diagram relations	24
8. IDEF0 model pages.....	25
8.1 Diagram pages.....	25
8.2 Text pages	25
8.3 Glossary pages.....	25
8.4 FEO pages	26
8.5 Other pages	26

9. IDEF0 diagram features	26
9.1 Boxes.....	26
9.2 Interbox connections.....	26
9.3 Boundary arrow segments.....	27
9.4 Tunneled arrows.....	28
9.5 Model notes.....	30
10. IDEF0 reference expressions	31
10.1 Box numbers.....	34
10.2 Node numbers.....	34
10.3 Diagram numbers	35
10.4 Node tree	36
10.5 Node index	37
10.6 Diagram references.....	37
10.7 Page references.....	37
11. IDEF0 diagram feature references	37
Annex A (informative) Bibliography.....	42
Annex B (informative) IDEF0 language: abstract formalization	43
Annex C (informative) Examples of IDEF0 usage and style	54
Annex C (informative) Examples of IDEF0 usage and style	54
Annex D (informative) IEEE list of participants	106
