## Graphic technology - Quantification and communication for calculating the carbon footprint of print media products

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | iv          |
| Introduction .....    |  | v           |
| 1                     | Scope .....  | 1           |
| 2                     | Normative references .....   | 1           |
| 3                     | Terms and definitions .....  | 1           |
| 3.1                   | Terms relating to carbon footprint .....   | 1           |
| 3.2                   | Terms relating to greenhouse gases .....   | 2           |
| 3.3                   | Terms relating to life cycle assessment .....  | 3           |
| 3.4                   | Terms relating to organisations and consumers .....  | 4           |
| 3.5                   | Terms relating to printed media product and process -- Prepress .....                          | 4           |
| 3.6                   | Terms relating to printed media product and process -- Press .....                             | 5           |
| 3.7                   | Terms relating to printed media product and process -- Postpress .....                         | 6           |
| 3.8                   | Terms relating to data and data quality .....  | 7           |
| 4                     | Principles for carbon footprint quantification .....   | 8           |
| 4.1                   | General requirements .....   | 8           |
| 4.2                   | Life cycle perspective .....   | 8           |
| 4.3                   | Relative approach and functional unit .....  | 8           |
| 4.4                   | Relevance .....  | 8           |
| 4.5                   | Completeness .....   | 8           |
| 4.6                   | Consistency .....  | 9           |
| 4.7                   | Accuracy .....   | 9           |
| 4.8                   | Transparency .....   | 9           |
| 4.9                   | Avoidance of double counting .....   | 9           |
| 4.10                  | Implementation criteria .....  | 9           |
| 5                     | Methodology .....  | 9           |
| 5.1                   | General requirements .....   | 9           |
| 5.2                   | Goal and scope .....   | 10          |
| 5.3                   | System boundary definitions .....  | 11          |
| 5.4                   | Time boundary for data .....   | 12          |
| 5.5                   | Carbon footprint quantification of life-cycle stages .....                                     | 12          |
| 6                     | Reporting .....  | 17          |
| 6.1                   | General .....  | 17          |
| 6.2                   | Documentation requirements .....   | 17          |
| 6.3                   | Interpretation of the carbon footprint of a product .....                                      | 18          |
| 7                     | Communication requirements .....   | 18          |
| 7.1                   | General .....  | 18          |
| 7.2                   | Interpretation and comparison .....  | 19          |
| 7.3                   | Product definitions and product category rules (PCRs) .....                                    | 19          |
| Annex A (informative) | General requirements and guidelines for CFP communication options --<br>Greenhouse gases ..... | 20          |
| Annex B (informative) | Inventory analysis of input criteria used to define the product profile .....                  | 23          |

|   |           |
|---|-----------|
| <b>Annex C (informative) Operations and materials in processes and data collection items within the system boundary .....</b> | <b>26</b> |
| <b>Annex D (informative) Intergraf recommendations on CO2 emissions calculation in the printing industry .....</b>            | <b>30</b> |
| <b>Annex E (normative) Guidelines for comparisons of the carbon footprints of print media .....</b>                           | <b>34</b> |
| <b>Annex F (informative) Calculation samples by Europe, Germany and Thailand .....</b>  | <b>35</b> |
| <b>Bibliography .....</b>   | <b>41</b> |
