

ISO/IEC 15026-1:2013-11 (E)

Systems and software engineering - Systems and software assurance - Part 1: Concepts and vocabulary

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Applicability	1
2.1	Audience	1
2.2	Field of applicability	1
3	Terms and definitions	1
3.1	Terms related to assurance and properties	1
3.2	Terms related to product and process	3
3.3	Terms related to integrity level	4
3.4	Terms related to conditions and consequences	4
3.5	Terms related to organization	5
4	Organization of this International Standard	6
5	Basic concepts	6
5.1	Introduction	6
5.2	Assurance	6
5.3	Stakeholders	7
5.4	System and Product	7
5.5	Property	7
5.6	Uncertainty and confidence	8
5.7	Conditions and initiating events	8
5.8	Consequences	9
6.1	Introduction	9
6.2	Initial usage guidance	9
6.4	Authorities	10
7.1	Introduction	11
7.2	Justification of method of reasoning	11
7.3	Means of obtaining and managing evidence	12
7.4	Certifications and accreditations	12
8.1	Introduction	13
8.2	Risk analysis	13
9.1	Introduction	14
9.2	Assurance activities in the life cycle	15
10	Summary	15
