

# DIN EN 16571:2014-10 (E)

## Information technology - RFID privacy impact assessment process

---

<b>Contents</b>		<b>Page</b>
Foreword .....		5
Introduction .....		6
1	Scope .....	7
2	Normative references .....	7
3	Terms and definitions .....	7
4	Symbols and abbreviations .....	11
5	Structure of this European Standard .....	12
6	Field of reference for this European Standard .....	12
6.1	'RFID' as defined by the EU RFID Recommendation .....	12
6.2	'RFID application' as defined by the EU RFID Recommendation .....	13
6.3	'RFID operator' as defined by the EU RFID Recommendation .....	13
6.4	Relationship between the RFID PIA and data protection and security .....	14
6.5	Relevant inputs for the PIA process .....	17
6.5.1	General .....	17
6.5.2	The privacy capability statement .....	17
6.5.3	The Registration Authority .....	17
6.5.4	RFID PIA templates .....	17
7	RFID operator's organizational objectives of the RFID PIA .....	17
7.1	Overview .....	17
7.2	Meeting and exceeding legal requirements .....	18
7.3	When to undertake the RFID PIA .....	19
7.3.1	General .....	19
7.3.2	Undertaking a PIA at the design stage before the RFID system becomes operational .....	19
7.3.3	Undertaking a PIA at a review and update the design-based PIA .....	19
7.3.4	Undertaking a PIA to contribute to the development of a template .....	19
7.3.5	Undertaking a PIA with an established template .....	20
7.3.6	Undertaking a PIA at the introduction of a new function within the RFID application .....	20
7.3.7	Undertaking a PIA based on changes in RFID technology .....	20
7.3.8	Undertaking a PIA when a privacy breach has been reported .....	20
8	Tools to simplify the process .....	21
8.1	RFID operator responsibility .....	21
8.2	RFID technology privacy capability tools - overview .....	21
8.3	Registration of RFID privacy capability statements by RFID product manufacturers .....	21
8.3.1	General .....	21
8.3.2	Obligations of the Registration Authority .....	21
8.3.3	Appointment .....	22
8.3.4	Resignation .....	22
8.3.5	Responsibilities of the RFID product manufacturers .....	22
8.4	RFID technology privacy capability tools - details .....	23
8.4.1	RFID integrated circuit privacy capabilities .....	23
8.4.2	RFID tag privacy capabilities .....	23
8.4.3	RFID interrogator privacy capabilities .....	23
8.4.4	The default privacy capability statement .....	23

8.4.5	Using CEN/TR 16672 to construct privacy capabilities for products using proprietary protocols .....	24
8.5	Templates .....	24
8.5.1	General .....	24
8.5.2	Developing a template .....	24
8.5.3	Who should prepare the templates? .....	25
8.5.4	The role of stakeholders in template development .....	25
9	RFID PIA - a process approach .....	26
9.1	Introduction .....	26
9.2	Process Steps .....	26
9.3	Achieving the correct level of detail .....	27
9.3.1	General .....	27
9.3.2	Level 0 - no PIA .....	27
9.3.3	Level 1 - small scale PIA .....	27
9.3.4	Level 2 - PIA focussed on the controlled domain of the application .....	27
9.3.5	Level 3 - Full scale (complete) PIA of the application .....	28
9.3.6	Reducing the effort for the SME organization .....	28
9.4	Process methodology .....	29
10	Preparing the RFID functional statement .....	30
11	Preparing the description of the RFID applications .....	31
11.1	Introduction .....	31
11.2	Multiple applications .....	31
11.3	RFID application overview .....	32
11.3.1	General .....	32
11.3.2	Determine which RFID technology is intended or being used .....	32
11.3.3	Determine the RFID components used in the application .....	33
11.3.4	RFID applications on portable devices .....	34
11.4	Data on the RFID tag .....	36
11.4.1	General .....	36
11.4.2	Determine what inherent identifiable features are possessed by the RFID tag .....	36
11.4.3	Listing the data elements encoded on the RFID tag .....	37
11.4.4	Determine whether encoded data can be considered identifiable .....	37
11.4.5	Determine whether personal data is encoded on the tag .....	38
11.5	Additional data on the application .....	38
11.6	RFID data processing .....	38
11.7	Internal transfer of RFID data .....	39
11.8	External transfer of RFID data .....	39
11.9	RFID application description sign off .....	39
12	Risk Assessment .....	40
12.1	Procedural requirements derived from the RFID Recommendation .....	40
12.1.1	Common procedure requirements for all RFID operators .....	40
12.1.2	Requirements for retailers that are RFID operators .....	41
12.1.3	Procedure requirements for manufacturers of products eventually sold to consumers ....	42
12.2	Asset identification and valuation .....	42
12.2.1	General .....	42
12.2.2	Identification of assets .....	43
12.2.3	Valuing assets .....	44
12.3	Threat identification and evaluation .....	47
12.3.1	General .....	47
12.3.2	Identification and classification of threats .....	48
12.3.3	Evaluating threats .....	49
12.3.4	The process for the SME organization .....	50
12.4	Identifying vulnerabilities and enumerating the associated risk levels .....	50
12.4.1	Basic procedure .....	50
12.4.2	Procedure to account for exposure time .....	51
12.5	Initial risk level .....	51
12.6	Countermeasures .....	53
12.6.1	General .....	53

12.6.2	Identifying countermeasures .....	53
12.6.3	Reassessing risk levels .....	55
12.7	Residual risks .....	55
12.8	RFID PIA endorsement .....	56
13	Worked example of the risk assessment process .....	56
14	The PIA summary report .....	56
14.1	PIA report date .....	56
14.2	RFID application operator .....	56
14.3	RFID application overview .....	56
14.4	Data on the RFID tag .....	56
14.5	RFID Privacy Impact Assessment score .....	57
14.6	RFID countermeasures .....	57
15	Revision control .....	57
16	Monitoring and incident response .....	58
Annex A (normative) Details of Registration Authority .....		59
Annex B (informative) RFID manufacturer's product privacy capability statements .....		60
B.1	RFID integrated circuit (chip) privacy features .....	60
B.2	RFID interrogator privacy features .....	62
Annex C (informative) RFID Privacy Impact Assessment flowchart .....		65
Annex D (informative) Template development .....		67
Annex E (informative) Flowchart to determine the RFID PIA level .....		68
Annex F (informative) RFID functional statement .....		69
Annex G (normative) RFID application description .....		70
Annex H (informative) Identification and valuation of personal privacy assets .....		71
H.1	Individually held personal privacy asset .....	71
H.2	Assets that apply to the organization .....	76
Annex I (informative) RFID threats .....		77
I.1	Threats associated with the data encoded on the RFID tag and the RFID tag (or RF card) itself .....	77
I.2	Threats associated with the air interface or the device interface communication .....	80
I.3	Threats associated with the interrogator (or reader) .....	85
I.4	Threats associated with the host application .....	85
Annex J (informative) Countermeasures .....		88
J.1	List of countermeasures .....	88
J.2	Threat and countermeasure mappings .....	90
Annex K (informative) PIA risk assessment example .....		94
K.1	Introduction .....	94
K.2	Ranking the assets .....	94
K.3	Considering threats at the tag layer and air interface layer .....	95
K.4	Considering threats at the interrogator layer .....	96
K.5	Considering threats at the device interface layer .....	97
K.6	Considering threats at the application layer .....	97

<b>K.7</b>	<b>Considering vulnerabilities .....</b>	<b>98</b>
<b>K.8</b>	<b>Risk scores after considering all the threats and vulnerabilities .....</b>	<b>98</b>
<b>K.9</b>	<b>Applying countermeasures .....</b>	<b>99</b>
<b>K.10</b>	<b>Overall risk .....</b>	<b>99</b>
<b>Annex L (informative) RFID Privacy Impact Assessment summary .....</b>		<b>101</b>
<b>Bibliography .....</b>		<b>102</b>
