ISO/IEC 9594-9:2014-03 (E)

Information technology - Open Systems Interconnection - The Directory - Part 9: Replication

Contents

		Page
1	Scope	1
2	Normative references	1
	2.1 Identical Recommendations | International Standards	1
3	Definitions	2
	3.1 Basic Directory definitions	2
	3.2 Directory model definitions	2
	3.3 Abstract service definitions	2
	3.4 Distributed operation definitions	2
	3.5 Protocol definitions	2
	3.6 Replication definitions	2
4	Abbreviations	3
5	Conventions	4
6	Replication in the Directory	4
	6.1 Caching	4
	6.2 Shadowing	4
	6.3 Shadowing functional model	5
7	Shadowing in the Directory	6
	7.1 Shadowing agreement	7
	7.2 Shadowed information	7
	7.3 Shadow operations	11
	7.4 DSA Shadow Bind and DSA Shadow Unbind operation	12
8	Shadow operational binding	12
	8.1 Shadow operational binding type characteristics	12
	8.2 DSA procedures for operational binding management	13
	8.3 Operational binding	14
9	Shadowing agreement	15
	9.1 Shadowing agreement specification	15
	9.2 Unit of replication	16
	9.3 Update mode	21
10	Directory information shadow service	22
	10.1 Shadow supplier initiated service	22
	10.2 Shadow consumer initiated service	23
11	Shadow operations	23
	11.1 Coordinate Shadow Update operation	23
	11.2 Request Shadow Update operation	25
	11.3 Update Shadow operation	27
12	Shadow error	30
	12.1 Shadow error problems	31
	12.2 Last update	31
	12.3 Update window	31
	12.4 Common results	32
Annex A – Directory shadow abstract service in ASN.1		33
Annex B – Amendments and corrigenda		39
