# ISO/IEC 11693-3:2015-06 (E)

## Identification cards - Optical memory cards - Part 3: Authentication techniques

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Terms and Definitions ..... 1

4 Authentication techniques ..... 2

5 Physical characteristics of authentication elements ..... 2
5.1 Dimensions ..... 2
5.2 Technology combinations ..... 2
5.3 Card construction ..... 3
5.4 Cross section at accessible optical area ..... 3
5.4.1 Protective layer(s) ..... 3
5.4.2 Storage layer ..... 3
5.4.3 Reflective layer ..... 4
5.4.4 Substrate layer ..... 4
5.4.5 Adhesive layer ..... 4
5.5 Bending stiffness ..... 4
5.6 Card warpage ..... 4
5.7 X-rays ..... 4
5.8 Toxicity ..... 4
5.9 Ultraviolet light ..... 4
5.10 Light transmittance ..... 5
5.11 Bending properties ..... 5
5.12 Resistance to chemicals ..... 5
5.13 Atmospheric requirements ..... 5
5.14 Durability ..... 5
5.15 Dimensional stability and warpage with temperature and humidity ..... 5
5.16 Default test environment and conditioning ..... 5

6 Optical properties and characteristics ..... 5
6.1 Surface roughness/scattering ..... 5
6.2 Reflectivity of blank accessible optical area ..... 5
6.3 Optical resolution ..... 6
6.4 Polarization ..... 6

Bibliography ..... 7
