

DIN EN 1332-1:2000-01 (E)

Identification card systems - Man-machine interface - Part 1: Design principles for the user interface

Contents

	Page
Foreword	3
Introduction	3
1 Scope	4
2 Normative references	4
3 Definitions, symbols and abbreviations	5
3.1 Definitions	5
3.2 Abbreviations	6
4 Dialogue design principles	6
4.1 Suitable for the task	6
4.2 Self descriptive	6
4.3 Consistent	6
4.4 Conforms with user expectations	6
4.5 Controllable.....	6
4.6 Error tolerant/forgiving	6
4.7 Individual adaptation.....	6
4.8 Access on equal terms	7
4.9 Privacy and confidentiality at the user interface	7
4.10 Usability testing	7
5 User interface design principles	7
5.1 User instructions	7
5.2 Single handed operation.....	7
5.3 Feedback	7
5.4 Timing of operations	7
5.5 Error messages	7
5.6 Cancellation of operation.....	7
5.7 Provision of charges	7
5.8 Receipts.....	8
5.9 Card capture	8
5.10 Exiting the system	8
6 Functions to be represented by symbols	8
7 Testing for conformance with this standard	10
Annex A (informative) Bibliography	10
