## Software and systems engineering - Reference model for product line engineering and management

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	From single-system engineering and management toward product line engineering and management .....	6
4.1	Challenges product companies face in the use of single-system engineering and management .....	6
4.2	Variability management .....	7
4.3	Key differentiators between single-system engineering and management and product line engineering and management .....	7
5	Reference model for product line engineering and management .....	9
5.1	General .....	9
5.2	Product line reference model .....	10
6	Two life cycles and two process groups for product line engineering and management ...	12
6.1	Domain engineering life cycle .....	12
6.1.1	Product line scoping .....	12
6.1.2	Domain requirements engineering .....	12
6.1.3	Domain design .....	13
6.1.4	Domain realization .....	14
6.1.5	Domain verification and validation .....	15
6.2	Application engineering life cycle .....	16
6.2.1	Application requirements engineering .....	16
6.2.2	Application design .....	16
6.2.3	Application realization .....	17
6.2.4	Application verification and validation .....	18
6.3	Organizational management process group .....	19
6.3.1	Organizational-level product line planning .....	19
6.3.2	Organizational product line-enabling management .....	21
6.3.3	Organizational product line management .....	21
6.4	Technical management process group .....	22
6.4.1	Process management .....	22
6.4.2	Variability management .....	23
6.4.3	Asset management .....	24
6.4.4	Support management .....	25
7	Relationships within and between domain engineering and application engineering .....	25
7.1	Interrelations between product line scoping and domain requirements engineering .....	25
7.2	Interrelations between domain requirements engineering and domain design .....	26
7.3	Interrelations between domain design and domain realization .....	26
7.4	Interrelations between domain requirements engineering and domain verification and validation .....	27
7.5	Interrelations between domain design and domain verification and validation .....	27

7.6	Interrelations between domain realization and domain verification and validation .....	28
7.7	Interrelations between product line scoping and application requirements engineering	28
	7.8 Interrelations between domain requirements engineering and application requirements engineering .....	29
7.9	Interrelations between domain design and application design .....	29
7.10	Interrelations between domain realization and application realization .....	30
7.11	Interrelations between domain verification and validation and application verification and validation .....	30
7.12	Interrelations between application requirements engineering and application design .....	31
7.13	Interrelations between application design and application realization .....	31
7.14	Interrelations between application requirements engineering and application verification and validation .....	32
7.15	Interrelations between application design and application verification and validation .....	32
7.16	Interrelations between application realization and application verification and validation .....	33
	Annex A (informative) Further information on products .....	34
	Bibliography .....	35
