## Information technology - Relayed Multicast Control Protocol (RMCP) - Framework

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| 1               | Scope .....   | 1           |
| 2               | Normative references .....  | 1           |
| 3               | Definitions .....   | 1           |
| 3.1             | Terms defined elsewhere .....                                       | 1           |
| 3.2             | Terms defined in this Recommendation   International Standard ..... | 1           |
| 4               | Abbreviations .....   | 2           |
| 5               | Conventions .....   | 2           |
| 6               | Framework of RMCP .....   | 2           |
| 6.1             | Introduction .....  | 2           |
| 6.2             | Basic concept of RMCP .....   | 3           |
| 6.3             | RMCP data delivery model .....                                      | 5           |
| 6.4             | Security consideration in RMCP .....                                | 8           |
| 7               | RMCP functions .....  | 8           |
| 7.1             | Session initiation .....  | 8           |
| 7.2             | Session subscription and join .....                                 | 9           |
| 7.3             | Session leave .....   | 9           |
| 7.4             | Session termination .....   | 9           |
| 7.5             | Session maintenance .....   | 9           |
| 7.6             | Session monitoring .....  | 9           |
| 8               | Messages .....  | 10          |
| 8.1             | Basic message structure .....                                       | 10          |
| 8.2             | Control format .....  | 10          |
| 8.3             | Sub-control format .....  | 10          |
|                 | Bibliography .....  | 12          |
