

ISO/IEC TR 30132-1:2016-09 (E)

Information technology - Information technology sustainability - Energy efficient computing models - Part 1: Guidelines for energy effectiveness evaluation

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Abbreviated terms	1
5 Reference computing model for end-to-end energy effectiveness evaluation	2
5.1 Overview of computing models	2
5.2 Reference computing model and energy effectiveness evaluation	4
6 Holistic framework for evaluating the applicability of energy effectiveness improving technologies	6
6.1 Motivation	6
6.2 Overview of holistic framework	7
6.3 Considerations for evaluating the applicability	7
6.4 Examples of energy effectiveness evaluation	7
7 Guidelines for determining the energy effectiveness of a computing model	11
Annex A (informative) State of affairs for improving energy effectiveness of computing systems	12
Annex B (informative) Survey for calculating power consumption of the components in computing models	19
Bibliography	21
