## Identification cards - ICC-managed devices - Part 3: Organization, security and commands for interchange

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
<b>1</b>	<b>Scope .....</b>	<b>1</b>
<b>2</b>	<b>Normative references .....</b>	<b>1</b>
<b>3</b>	<b>Terms and definitions .....</b>	<b>1</b>
<b>4</b>	<b>Symbols and abbreviated terms .....</b>	<b>4</b>
<b>5</b>	<b>Architectural aspects .....</b>	<b>5</b>
5.1	General architecture .....	5
5.2	Operational conditions .....	6
5.2.1	Interfaces .....	6
5.2.2	Identification of additional devices .....	7
5.2.3	Device discovery mechanism .....	7
5.2.4	Logical activation of additional devices .....	8
5.2.5	Activation sequence .....	8
5.2.6	Activity states of additional devices .....	8
5.2.7	Exclusive usage attribute .....	10
5.2.8	General functionality .....	11
5.2.9	Timer control .....	12
5.3	Energy depending activation .....	12
5.4	Addressing of an additional device .....	12
5.4.1	General .....	12
5.4.2	Device identifier .....	12
5.4.3	Device handle .....	13
5.5	Device control information .....	13
5.5.1	Administration of additional devices .....	13
5.5.2	Device control parameter DVCP .....	13
5.5.3	General device information template .....	15
<b>6</b>	<b>Functions of the additional device management command .....</b>	<b>17</b>
6.1	General .....	17
6.2	Specific status bytes for additional device management .....	18
6.3	Functions of additional device management command .....	18
6.3.1	General command handling .....	18
6.3.2	general device reset function .....	18
6.3.3	logical device reset function .....	19
6.3.4	open device function .....	19
6.3.5	deactivate device function .....	20
6.3.6	reactivate device function .....	20
6.3.7	exclusive device usage function .....	20
6.3.8	general device usage function .....	21
6.3.9	get from device function .....	21
6.3.10	put to device function .....	22
6.3.11	get device information function .....	23
6.3.12	erase device content function .....	23
6.3.13	manage device configuration function .....	24

7	Usage of off-card devices .....	24
7.1	General .....	24
7.2	Transmission mechanism .....	26
7.3	Device handle .....	27
7.4	Secure channel .....	27
8	Command structures with adm functions in applications .....	28
9	Security aspects .....	28
9.1	Security attributes .....	28
9.1.1	Access mode field for adm command .....	28
9.1.2	Security conditions .....	29
9.2	Data integrity and confidentiality .....	29
9.3	Security with off-card-devices .....	30
9.4	Trust assessment .....	30
10	Device configuration template .....	30
10.1	Configuration template .....	30
10.2	Usage of device configuration templates .....	31
	Annex A (informative) Activity sequences .....	32
	Annex B (informative) Examples for information templates .....	34
	Annex C (informative) Example of command sequences with additional devices .....	38
	Annex D (informative) General system description .....	41
	Bibliography .....	42
