ISO/IEC 26559:2017-07 (E)

Software and systems engineering - Methods and tools for variability traceability in software and systems product line

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Abbreviated terms 2

5 Reference model for variability traceability in software and systems product line 2
5.1 Overview 2
5.2 Reference model for variability traceability in software and systems product line 4

6 Variability tracing management 7
6.1 General 7
6.2 Variability tracing planning 7
6.2.1 Purpose of variability tracing planning 7
6.2.2 Design variability tracing strategy 8
6.2.3 Define quality assurance measures for variability tracing 8
6.2.4 Assign responsibility for variability tracing 9
6.2.5 Record variability tracing plan 9
6.3 Variability tracing enabling 10
6.3.1 Purpose of variability tracing enabling 10
6.3.2 Provide guidance for variability tracing 10
6.3.3 Mobilize roles and responsibilities for variability tracing 11
6.3.4 Enable variability tracing management 11
6.3.5 Enable variability tracing operations 11
6.3.6 Enable quality assurance measurement for variability tracing 12
6.4 Variability tracing managing 12
6.4.1 Purpose of variability tracing managing 12
6.4.2 Review the plan versus actual result of variability tracing 13
6.4.3 Control issues on domain/application variability tracing 13
6.4.4 Control issues on variability traceability management 13
6.4.5 Control issues on variability tracing support 14
6.4.6 Support corrective actions for variability tracing 14
6.4.7 Make improvement actions for variability tracing 15

7 Variability tracing 15
7.1 General 15
7.2 Traceability between domain variability model and domain artefacts 15
7.2.1 Purpose of traceability between domain variability model and domain artefacts 15
7.2.2 Identify relations between variation point and domain artefact 16
7.2.3 Identify relations between variant and domain artefact 16
7.2.4 Define the trace links between domain variability model and domain artefacts.17 7.3 Traceability between application variability model and application artefacts 17
7.3.1 Purpose of traceability between application variability model and application artefacts 17
7.3.2 Identify relations between variation point and application artefact 18
7.3.3 Identify relations between variant and application artefact 18

7.3.4 Define the trace links between application variability model and application artefacts 19
7.4 Traceability between domain and application variability model 19
7.4.1 Purpose of traceability between domain and application variability model 19
7.4.2 Identify relations between domain and application variability model 20
7.4.3 Define trace links in accordance with binding results 20
7.5 Traceability among variability related artefacts within a stage 20

7.5.1 Purpose of traceability between variability related artefacts within a stage 20
7.5.2 Identify relations among domain artefacts within the same stage 21
7.5.3 Define trace links among domain artefacts within the same stage 21
7.5.4 Instantiate trace links in line with binding results 22
7.6 Traceability between variability related artefacts in adjacent stages 22
7.6.1 Purpose of traceability between variability related artefacts in different adjacent stages . 22
7.6.2 Identify relations between domain artefacts in adjacent stages 23
7.6.3 Define trace links between domain artefacts in adjacent stages 23
7.6.4 Instantiate trace links in line with binding results 24

8 Variability tracing support 24
8.1 General 24
8.2 Relating tracing to variability model 24
8.2.1 Purpose of relating tracing to variability model 24
8.2.2 Identify variability tracing conflicts 25
8.2.3 Harmonize variability traceability with product line traceability 25
8.3 Quality assurance for variability tracing 26
8.3.1 Purpose of quality assurance for variability tracing 26
8.3.2 Objectively evaluate variability tracing activities 26
8.3.3 Objectively evaluate variability tracing work products 27
8.3.4 Communicate and resolve noncompliance issues 27
8.3.5 Establish records of tracing quality assurance activities 28
8.4 Variability tracing algorithm 28
8.4.1 Purpose of variability tracing algorithm 28
8.4.2 Identify algorithms for variability tracing 29
8.4.3 Evaluate defined variability tracing algorithms 29
8.4.4 Measure the performance of algorithms 30
8.4.5 Optimize traceability algorithms 30

Annex A (informative) Variability traceability dimension 31

Annex B (informative) Types of variability traceability relations 32

Annex C (informative) Variability traceability attributes 34

Bibliography 35
