1	Scope	1
2	Normative references	1
	2.1 Identical Recommendations | International Standards	1
	2.2 Paired Recommendations | International Standards equivalent in technical content	2
	2.3 Additional references	2
3	Definitions	2
	3.1 Terms defined in this Recommendation | International Standard	2
	3.2 Terms defined in other International Standards	2
4	Abbreviations	3
5	Symbols and terminology	3
6	Biometric hardware security module for telebiometric authentication	3
	6.1 Additional feature of BHSM to the HSM	3
	6.2 General scenario for use of the BHSM	4
	6.3 Telebiometric authentication using the BHSM	4
7	Telebiometric authentication with biometric hardware security module	5
	7.1 General	5
	7.2 Enrolment procedures	5
	7.3 Telebiometric authentication processes	7
8	BHSM based telebiometric authentication procedures	9
	8.1 PSID generation and ITU-T X.509 certificate	9
	8.2 BHSM based telebiometric authentication process	10
	8.3 ASN.1 type for the encrypted PSID	10
Annex A – PSID and related information		11
	A.1 General	11
	A.2 Encrypted PSID requesting an ITU-T X.509 certificate	11
	A.3 ASN.1 for PSID	11
Annex B – Procedures for inserting PSID using PKCS #10 with modification		13
