

ISO/IEC 22425:2017-11 (E)

Information technology - Telecommunications and information exchange between systems - NFC-SEC Test Methods

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Conformance	1
3	Normative references	1
4	Terms and definitions	2
5	Conventions and notations	2
6	Acronyms	2
7	NFC-SEC-TEST apparatus	3
7.1	General	3
7.2	Apparatus for testing the Sender	4
7.3	Apparatus for testing the Recipient	4
7.4	NFC-SEC-01 emulation	4
7.5	NFC-SEC-02 emulation	4
7.6	NFC-SEC-03 emulation	4
7.7	NFC-SEC-04 emulation	5
8	Test rules	5
8.1	General test rules	5
8.2	Test scenario and report	5
8.3	RFU bits	5
8.4	Test scenarios	5
9	Test methods for NFC-SEC-01	7
9.1	Recipient test methods	7
9.1.1	List of protocol test methods	7
9.1.2	NFC-SEC-PDU format	7
9.1.3	Logical operation of the Transport Protocol	8
9.2	Sender test methods	9
9.2.1	List of protocol test methods	10
9.2.2	NFC-SEC-PDU format	10
9.2.3	Logical operation of the Transport Protocol	10
10	Test methods for NFC-SEC-02	12
10.1	Recipient test methods	12
10.2	Sender test methods	13
10.2.1	ACT_REQ PDUs	13
10.2.2	ENC PDUs	13
11	Test methods for NFC-SEC-03	14
11.1	Recipient test methods	14
11.1.1	List of protocol test methods	14
11.1.2	NFC-SEC-PDU format	14

11.1.3	Logical operation of the Transport Protocol	14
11.2	Sender test methods	16
11.2.1	List of protocol test methods	16
11.2.2	NFC-SEC-PDU format	16
11.2.3	Logical operation of the Transport Protocol	16
11.2.4	Logical operation of the TTP Transport Protocol	18
12	Test methods for NFC-SEC-04	18
12.1	Recipient test methods	18
12.1.1	List of protocol test methods	19
12.1.2	Logical operation of the Transport Protocol	19
12.2	Sender test methods	20
12.2.1	List of protocol test methods	20
12.2.2	Logical operation of the Transport Protocol	20
Annex A (informative) Test report template for Recipient tests		22
Annex B (informative) Test report template for Sender tests		25
