ISO 20690:2018-02 (E)

Graphic technology - Determination of the operating power consumption of digital printing devices

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 General conditions 5
4.1 Condition, age and machine combination 5
4.2 Connection conditions 6
4.3 Printing conditions and operational modes 7
4.3.1 General 7
4.3.2 Measurements required for energy efficiency 7
4.3.3 Measurements required for power consumption 8
4.4 Measuring conditions 8
4.5 Measurement cycle 8
4.6 Calculation and documentation of measurement results 11

Annex A (normative) Measurement data sheet 13

Annex B (informative) Operating power consumption measurement procedures for digital printing devices 17
