

ISO 20690:2018-02 (E)

Graphic technology - Determination of the operating power consumption of digital printing devices

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	General conditions	5
4.1	Condition, age and machine combination	5
4.2	Connection conditions	6
4.3	Printing conditions and operational modes	7
4.3.1	General	7
4.3.2	Measurements required for energy efficiency	7
4.3.3	Measurements required for power consumption	8
4.4	Measuring conditions	8
4.5	Measurement cycle	8
4.6	Calculation and documentation of measurement results	11
Annex A (normative) Measurement data sheet		13
Annex B (informative) Operating power consumption measurement procedures for digital printing devices		17
Bibliography		23
