

ISO 20690:2018-02 (E)

Graphic technology - Determination of the operating power consumption of digital printing devices

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 General conditions	5
4.1 Condition, age and machine combination	5
4.2 Connection conditions	6
4.3 Printing conditions and operational modes	7
4.3.1 General	7
4.3.2 Measurements required for energy efficiency	7
4.3.3 Measurements required for power consumption	8
4.4 Measuring conditions	8
4.5 Measurement cycle	8
4.6 Calculation and documentation of measurement results	11
Annex A (normative) Measurement data sheet	13
Annex B (informative) Operating power consumption measurement procedures for digital printing devices	17
Bibliography	23
