

# ISO/IEC 30140-4:2018-07 (E)

## Information technology - Underwater acoustic sensor network (UWASN) - Part 4: Interoperability

---

<b>Contents</b>	<b>Page</b>
FOREWORD .....	3
INTRODUCTION .....	4
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions .....	5
4 Abbreviated terms .....	5
5 Interoperability in UWASN .....	6
5.1 Overview .....	6
5.1.1 Interoperability definition .....	6
5.1.2 Achieving interoperability .....	6
5.1.3 The need for interoperability .....	6
5.1.4 UWASN interoperability .....	6
5.2 Interoperability between the user and the UWA-GW .....	9
5.3 Interoperability between the UWA-GW and the UWA-FN .....	9
5.4 Interoperability between UWA-FNs .....	10
5.5 Interoperability between UWA-GWs .....	11
6 UWASN communication technology interoperability architecture point of view .....	11
7 UWASN communication technology interoperability architecture from service point of view .....	12
7.1 General .....	12
7.2 Example: Interoperability between heterogeneous networks .....	14
Bibliography .....	16
Figure 1 – Interoperability in UWASN .....	8
Figure 2 – Graphical representation of interoperable UWASN .....	8
Figure 3 – Interoperability of UWASN .....	9
Figure 4 – Generic standardized interface for interoperability in UWASNs .....	9
Figure 5 – Multiple interfaces on a UWA-GW to provide interoperability in UWASN .....	10
Figure 6 – Interoperability between fundamental networks .....	11
Figure 7 – Interoperability between UWA-GWs .....	11
Figure 8 – UWASN communication technology interoperability architecture point of view .....	12
Figure 9 – UWASN communication technology interoperability architecture a from service point of view .....	13
Figure 10 – Interoperability between heterogeneous networks .....	15
Table 1 – UWASN CTI-AP Entities .....	14
Table 2 – UWASN CTI-AP interoperability .....	14
