

ISO/IEC 30140-4:2018-07 (E)

Information technology - Underwater acoustic sensor network (UWASN) - Part 4: Interoperability

Contents

	Page
FOREWORD.....	3
INTRODUCTION.....	4
1 Scope.....	5
2 Normative references	5
3 Terms and definitions	5
4 Abbreviated terms	5
5 Interoperability in UWASN	6
5.1 Overview.....	6
5.1.1 Interoperability definition	6
5.1.2 Achieving interoperability.....	6
5.1.3 The need for interoperability	6
5.1.4 UWASN interoperability	6
5.2 Interoperability between the user and the UWA-GW.....	9
5.3 Interoperability between the UWA-GW and the UWA-FN.....	9
5.4 Interoperability between UWA-FNs	10
5.5 Interoperability between UWA-GWs	11
6 UWASN communication technology interoperability architecture point of view	11
7 UWASN communication technology interoperability architecture from service point of view.....	12
7.1 General.....	12
7.2 Example: Interoperability between heterogeneous networks	14
Bibliography.....	16
 Figure 1 – Interoperability in UWASN.....	8
Figure 2 – Graphical representation of interoperable UWASN	8
Figure 3 – Interoperability of UWASN	9
Figure 4 – Generic standardized interface for interoperability in UWASNs	9
Figure 5 – Multiple interfaces on a UWA-GW to provide interoperability in UWASN.....	10
Figure 6 – Interoperability between fundamental networks	11
Figure 7 – Interoperability between UWA-GWs	11
Figure 8 – UWASN communication technology interoperability architecture point of view	12
Figure 9 – UWASN communication technology interoperability architecture a from service point of view	13
Figure 10 – Interoperability between heterogeneous networks	15
