

DIN CEN/TS 17261:2019-03 (E)

Biometric authentication for critical infrastructure access control - Requirements and Evaluation; English version CEN/TS 17261:2018

Contents	Page
European foreword.....	3
Introduction	4
1 Scope.....	5
2 Normative references.....	5
3 Terms and definitions.....	6
4 Symbols and abbreviations	8
5 Conformance.....	8
6 Typical use-case.....	8
7 Requirements and recommendations.....	9
7.1 General.....	9
7.2 Design.....	9
7.2.1 General.....	9
7.2.2 Protection of access to biometric server, biometric data and functions of the biometric subsystem.....	9
7.2.3 Operator/Administrator control and authentication.....	9
7.2.4 Door unit	10
7.2.5 Biometric enrolment, re-enrolment and deletion	10
7.2.6 Biometric recognition	10
7.3 Operation	10
7.3.1 General.....	10
7.3.2 Identity assurance for enrolment	10
7.3.3 Enrolment process.....	10
7.3.4 Fallback authentication	11
7.4 Technical performance	11
7.4.1 General.....	11
7.4.2 Failure to enrol rate	11
7.4.3 Enrolment transaction duration.....	11
7.4.4 False accept rate.....	11
7.4.5 False reject rate	12
7.4.6 Verification transaction duration	12
7.5 Attack resistance	12
7.5.1 General.....	12
7.5.2 Resistance to tamper	12
7.5.3 Resistance to presentation attack.....	13
7.6 Performance and attack resistance requirements	13
8 Testing and reporting.....	14
8.1 System information and documentation.....	14
8.2 Configuration of system for testing	14
8.2.1 Scenario AACS.....	14
8.2.2 Configuration of biometric systems under test.....	15
8.3 Outline of test processes.....	15
8.3.1 Pretesting.....	15
8.3.2 Scenario performance evaluation.....	15
8.3.3 Attack resistance evaluation.....	17
Bibliography.....	18

8.3	Outline of test processes.....	15
8.3.1	Pretesting.....	15
8.3.2	Scenario performance evaluation.....	15
8.3.3	Attack resistance evaluation.....	17
	Bibliography.....	18
