ISO/IEC 23681:2019 (E)

Information technology — Self-contained Information Retention Format (SIRF) Specification

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Business Case

5 Specification Overview

- 5.1 Container Components
- 5.2 SIRF Catalog
- 5.3 Metadata Units

6 Container Information Metadata

- 6.1 Specification Category
- 6.2 Container ID Category
- 6.3 State Category
- 6.4 Provenance Category
- 6.5 Audit Log Category

7 Object Information Metadata

- 7.1 Object IDs Category
- 7.2 Dates Category
- 7.3 Related Objects Category
- 7.4 Packaging Format Category
- 7.5 Fixity Category
- 7.6 Retention Category
- 7.7 Audit Log Category
- 7.8 Extension Category

8 Serialization for SNIA CDMI

- 8.1 Catalog Serialization: Object IDs Category
- 8.2 Catalog Serialization: Fixity Category

9 Serialization for SNIA LTFS

- 9.1 Catalog Serialization: Object IDs Category
- 9.2 Catalog Serialization: Fixity Category

10 Serialization for OpenStack Swift

11 Use Case Example

Annex A (informative) XML schema for the SIRF catalog

Annex B (informative) Sample XML catalog

Annex C (informative) Sample JSON catalog
