ISO/IEC 26562:2019-11 (E)

Software and systems engineering - Methods and tools for product line transition management

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 TermsandDefinitions 1

4 Reference model for product line transition management 2
4.1 Overview 2
4.2 Product line transition management 3
4.3 Product line transition operationalization 3
4.4 Product line transition support 4

5 Product line transition management 5
5.1 General 5
5.2 Product line transition planning 5
5.2.1 Principal constituents 5
5.2.2 Establish organization's transition goal 6
5.2.3 Determine organization's transition strategy 7
5.2.4 Define key procedures for transition 7
5.2.5 Formulate schedules and required resources for transition 8
5.2.6 Specify how to monitor, measure, and control the effectiveness of transition 8
5.2.7 Document product line transition plan 9
5.3 Product line transition enabling 9
5.3.1 Principal constituents 9
5.3.2 Establish governance policy for transition 10
5.3.3 Mobilize qualified human resources for transition 10
5.3.4 Identify infrastructure and resource needs for transition operationalization and support 11
5.3.5 Enable quality assurance measurement for transition 11
5.3.6 Improve transition process continuously 12
5.4 Product line transition managing 12
5.4.1 Principal constituents 12
5.4.2 Tailor and allocate governance policy, R & R, and resources to relevant sub functions of transition 13
5.4.3 Collect data from SSPL transition sub functions 13
5.4.4 Monitor, measure, and control transition operationalization and support 14
5.4.5 Manage actual operation and support of transition 14
5.4.6 Provide feedback to planning and enabling functions of transition 15

6 Product line transition operationalization 15
6.1 General 15
6.2 Product line transition preparation 15
6.2.1 Principal constituents 15
6.2.2 Create transition scenarios to deploy transition strategy 16
6.2.3 Analyse the effectiveness of the transition scenarios 17
6.2.4 Select an optimal transition scenario 17
6.2.5 Specify the scenario for transition launch 17
6.2.6 Train human resources responsible for transition 17

6.3 Launching the product line transition 18
6.3.1 Principal constituents 18
6.3.2 Launch a pilot transition 19
6.3.3 Deliver findings from launching the pilot transition 19
6.3.4 Improve the transition process from the actual pilot(s) 19
6.3.5 Retrain human resources responsible for transition 20
6.4 Product line transition operation 20

6.4.1 Principal constituents 20
6.4.2 Perform organization wide transition operation 21
6.4.3 Capture relevant data from the operation 21
6.4.4 Document the findings, strengths, and weaknesses 21
6.4.5 Assess gaps between to-be and as-is 22
6.4.6 Improve the transition process from the gap assessment results 22
6.5 Institutionalizing the product line transition 22
6.5.1 Principal constituents 22
6.5.2 Assign responsibilities of roles for institutionalization 23
6.5.3 Identify gaps to drive improvements for institutionalization 23
6.5.4 Exercise necessary actions to fill the gaps 24
6.5.5 Monitor the status/effects of the actions 24
6.5.6 Perform continuous improvement for institutionalization 24

7 Product line transition support 25
7.1 General 25
7.2 Quality assurance for product line transition 25
7.2.1 Principal constituents 25
7.2.2 Objectively evaluate transition activities 26
7.2.3 Objectively evaluate transition work products 26
7.2.4 Communicate and resolve noncompliance issues 27
7.2.5 Establish records of transition quality assurance activities 27
7.3 Measuring the success of product line transition 28
7.3.1 Principal constituents 28
7.3.2 Integrate measurement results of product line transition 28
7.3.3 Evaluate the success of product line transition 29
7.3.4 Record results and inform to the relevant stakeholders 29
7.3.5 Improve the product line transition process continuously 30
7.4 Risk management for product line transition 30
7.4.1 Principal constituents 30
7.4.2 Identify risks related to the success of transition 31
7.4.3 Develop mitigation plans for the identified risks 32
7.4.4 Monitor the execution of the mitigation plan 32
7.4.5 Learn from actual results of risk management for product line transition 32

Annex A (informative) Exemplar product line transition strategies 34
