## Identification cards - Physical characteristics

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Conformance .....	3
5	Dimensions of card .....	3
5.1	General .....	3
5.2	Card dimensions and tolerances .....	3
5.3	Card edges .....	5
6	Card construction .....	5
7	Card materials .....	5
8	Card characteristics .....	5
8.1	Bending stiffness, ID-1 size card only .....	5
8.2	Toxicity .....	5
8.3	Resistance to chemicals .....	5
8.4	Card stability with temperature and humidity .....	6
8.5	Light .....	6
8.6	Durability .....	6
8.7	Peel strength .....	6
8.8	Adhesion or blocking .....	6
8.9	Opacity, ID-1 size card only .....	7
8.10	Overall card warpage, ID-1 size card only .....	7
8.11	Resistance to heat, ID-1 size card only .....	7
8.12	Surface distortions, raised and depressed areas .....	8
8.13	Contamination and interaction of card components .....	8
8.14	Dynamic bending stress, ID-1 size card only .....	8
9	Criteria for cards containing IC's .....	8
9.1	General .....	8
9.2	X-rays .....	8
9.3	Static electricity .....	9
9.3.1	IC cards with contacts .....	9
9.3.2	Contactless IC cards .....	9
9.4	Operating temperature .....	9
9.5	Mechanical strength .....	9
9.5.1	General .....	9
9.5.2	Mechanical strength of cards with contacts (3 wheel test, ID-1 size card only) .....	9
9.5.3	Mechanical strength of contacts .....	9
9.6	Electrical surface resistance of contacts .....	9
9.7	IC and magnetic stripe electromagnetic interference .....	9
9.8	Resistance to chemicals .....	9
9.9	Antenna for contactless interface (ID-1 size card only) .....	10

9.10	Resistance to temperature and humidity .....	10
9.11	Dynamic torsion stress, ID-1 size card only .....	10
10	Card interface devices .....	10
10.1	General .....	10
10.2	ESD robustness .....	10
Annex A (informative) ID-000 size card as part of ID-1 size card .....		11
Bibliography .....		12
