

# ISO/IEC 30161-1:2020-11 (E)

## Internet of things (IoT) – Data exchange platform for IoT services – Part 1: General requirements and architecture

---

<b>Contents</b>	<b>Page</b>
FOREWORD.....	4
INTRODUCTION.....	5
1 Scope.....	6
2 Normative references .....	6
3 Terms and definitions .....	6
4 Abbreviated terms .....	7
5 Overview of IoT services .....	7
6 Network configurations for IoT services .....	7
6.1 Overview of network configurations for IoT .....	7
6.2 Network models for an IoT DEP .....	9
7 Data exchange platform in IoT reference architecture .....	9
7.1 General.....	9
7.2 Position of an IoT DEP in IoT reference architecture .....	9
7.2.1 Functions of the IoT DEP.....	9
7.2.2 Positions of the IoT DEP.....	10
7.3 Operation of an IoT DEP in an IoT system .....	10
8 Requirements for an IoT DEP .....	13
8.1 General.....	13
8.2 Requirements of functional blocks.....	13
8.2.1 Definitions of functional blocks .....	13
8.2.2 Communication access control (CAC).....	14
8.2.3 Data control.....	16
8.2.4 Data translation .....	16
8.2.5 IoT control .....	16
8.2.6 IoT management.....	16
8.2.7 Adaptation .....	16
8.3 Communication protocols.....	16
8.4 Service mapping .....	17
9 Operations of an IoT DEP .....	17
Annex A (normative) Implementation guideline for an IoT DEP .....	19
A.1 General.....	19
A.2 Abstraction of lower layer in IoT DEP .....	20
A.3 Abstraction of lower layer in IoT DEP .....	21
Annex B (informative) Typical communication protocols for ICN.....	22
Annex C (informative) Applied use cases based on an IoT data exchange platform .....	23
C.1 General.....	23
C.2 Farm product tracking use case: Actors and information exchange .....	23
C.3 IoT endpoint monitoring systems.....	24
C.4 IoT-based energy management system for industrial facilities .....	24
Bibliography.....	27

Figure 1 – Overview of network configurations .....	8
Figure 2 – Service types of the network configurations .....	8
Figure 3 – Redefined configuration types for an IoT DEP .....	9
Figure 4 – Locations of IoT DEP functions in the IoT reference models .....	10
Figure 5 – Cases of an IoT DEP and relationship between IoT and other services .....	11
Figure 6 – Operations of the IoT DEP in Case A .....	11
Figure 7 – Operations of an IoT DEP in Case B .....	12
Figure 8 – Operations of an IoT DEP in Case C .....	12
Figure 9 – Operations of an IoT DEP in Case D .....	12
