ISO/IEC 23127-1:2021 (E)

Information technology — Learning, education, and training — Metadata for facilitators of online learning — Part 1: Framework

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviated terms

5 Specification of data elements

- 5.1 General
- 5.2 Data element specification attributes
- 5.3 Data element specification: Matrix template
- 5.4 Data element specification: Example

6 OLF data elements

7 Specification of OLF classes

- 7.1 Definition of a resource class
- 7.2 Attributes of a resource class
- 7.3 Resource class specification: Matrix template

8 Generic OLF classes

- 8.1 General
- 8.2 IC0000 OLF information
- 8.3 IC0100 personal information
- 8.4 IC0200 occupational history information
- 8.5 IC0300 facilitation offer information
- 8.6 IC0400 performance history information
- 8.7 IC0500 academic ability
- 8.8 IC0600 OLF network information

9 Predefined rule sets

10 Specification of application profiles

- 10.1 General
- 10.2 Application profile attributes
- 10.3 DEGS' matrix
- 10.4 Application profile: Example

Annex A (informative) OLF information for online facilitation and training

- A.1 Examples of online services by OLFs
- A.2 Stakeholders and information stored in different systems or websites
