

ISO/IEC 19075-2:2021-08 (E)

Information technology - Guidance for the use of database language SQL - Part 2: Time-related information

Contents	Page
Foreword.....	vi
Introduction.....	viii
1 Scope.....	1
2 Normative references.....	2
3 Terms and definitions.....	3
4 Time-related data types, constructs, operators, and predicates.....	4
4.1 Context of time-related specifications.....	4
4.2 Datetime types.....	4
4.3 DateTime literals.....	6
4.4 Interval types.....	7
4.5 Interval literals.....	8
4.6 Periods.....	9
4.7 Operations involving datetimes and intervals.....	10
4.8 Time-related predicates.....	10
4.8.1 Overlaps predicate.....	10
4.8.2 Period predicates.....	11
5 Time-related tables.....	14
5.1 Introduction to time-related tables.....	14
5.2 Application-time period tables.....	14
5.2.1 Introduction to application-time period tables.....	14
5.2.2 Extensions to primary key / unique constraints.....	14
5.2.3 Extensions to referential constraints.....	15
5.2.4 Inserting rows into tables containing an application-time period definition.....	18
5.2.5 Updating rows of tables containing an application-time period definition.....	18
5.2.6 Updating the table between specific points in time.....	19
5.2.7 Deleting rows from tables containing an application-time period definition.....	22
5.2.8 Deleting rows between specific points in time.....	22
5.2.9 Querying tables containing a period definition.....	24
5.2.10 Adding a period definition to a table.....	25
5.3 System-versioned tables.....	26
5.3.1 Introduction to system-versioned tables.....	26
5.3.2 Primary key and referential constraints.....	27
5.3.3 Updating rows in system-versioned tables.....	28
5.3.4 Deleting rows in system-versioned tables.....	29
5.3.5 Querying system-versioned tables.....	29
5.4 Bi-temporal tables.....	30
Bibliography.....	32
Index.....	33

Table

Page

1	Fields in datetime values.	4
2	Mapping of datetime fields to datetime data types.	5
3	Examples of the datetime data types.	6
4	Examples of datetime literals.	6
5	Fields in year-month INTERVAL values.	7
6	Fields in day-time INTERVAL values.	7
7	Examples of day-time INTERVAL values.	8
8	Examples of interval literals.	8
9	Valid operators involving datetimes and intervals.	10
10	Example data table emp for primary key with application-time period.	15
11	Example data table dept for foreign key with application-time period.	16
12	Example data table emp for foreign key with application-time period.	16
13	Content of table emp after insert with application-time period.	18
14	Content of table emp before updating a row.	18
15	Content of table emp after updating a row.	19
16	Content of table emp before updating the application-time period of a row.	19
17	Content of table emp after updating the application-time period of a row.	19
18	Content of table emp before updating a row for an inner part of a period.	20
19	Content of table emp after updating a row for an inner part of a period.	20
20	Content of table emp before updating a row for all of a period.	20
21	Content of table emp after updating a row for all of a period.	21
22	Content of table emp before updating the edge of a period of a row.	21
23	Content of table emp after updating the edge of a period of a row.	21
24	Content of table emp before deleting an inner part of a period.	22
25	Content of table emp with application-time period after deleting an inner part of a period.	23
26	Content of table emp with application-time period before deleting a row.	23
27	Content of table emp before deleting an edge of a period.	23
28	Content of table emp after deleting an edge of a period.	24
29	Content of system-versioned table emp before updating a row.	28
30	Content of system-versioned table emp after updating a row.	28
31	Content of system-versioned table emp before deleting a row.	29
32	Content of system-versioned table emp after deleting a row.	29
